Online Summer Reading Program	Grades K - 4	June 5	August 11	M - F	Varies	Varies	Online	Taylor Weissmiller

Don't let the summer slide happen-get excited about reading this summer and get rewards! Kids will choose real books at their level, read them, and then complete a short activity through our online program of Google Classroom, or students can use the online platform of Learning A-Z to earn their minutes. The goal is to just keep reading over the summer! Reaching each milestone will guarantee you a prize, and for any additional challenge you complete, you will be entered for another prize. This is a great way to motivate kids to keep reading over the summer.

June Elementary Courses - Off Campus Classes

- Off Campus classes run M - Th for longer than 3 hours and for a various number of weeks (check descriptions for exact times and dates)
- Students in Off Campus classes **cannot** sign up for swimming lessons during the time of the class as students will not be on campus.
- Students in Off Campus classes **cannot** sign up for additional 1 or 3 hour courses because they will conflict with this course.
- If a course has a S1 and S2 next to it, it means that the same course runs twice. S1 or Session 1 runs from June 5 - 15, and S2 or Session 2 runs from June 19 - 29. If there is an S1 or S2 next to the name, the course only runs one session.

Summer Hiking S1 Adventures 4-5 (Class Limit 8)	Grades 4 -5	S1 June 5	June 15	M - Th	9:00 am	2:30 pm	MAES Meet by the bike rack	Carla Brost Jena O'Flanagan(W1) Lynn Venzke(W2)
<p>This course will explore all that North Central Wisconsin has to offer. Students will be given the opportunity to hop in the van to visit places such as the Dells of the Eau Claire, Wildcat Mound, Rib Mountain State Park, and more. On these adventures we will have opportunities to geocache (scavenger hunt), cook over a campfire, and explore the great outdoors. Students should be prepared to put on many walking and climbing miles so endurance is a must. Expectations will be high as students will be asked to follow directions and be on their best behavior. (Safety concerns can come into play if students are not able to follow safety rules.) Bring your sneakers and water bottles and leave those flip flops at home because this course is for the adventurer in all of us!! Students will be expected to dress for the weather as we will explore rain or shine. Lunch will NOT be provided, and students will need to bring their own. If your child is in swimming lessons, you can only sign up for the 3:00 lessons. We will not be back until 2:30. If you have taken this class before, please do not sign up for this class.</p>

<p>This course will explore all that North Central Wisconsin has to offer. Students will be given the opportunity to hop in the van to visit places such as the Dells of the Eau Claire, Wildcat Mound, Rib Mountain State Park, and more. On these adventures we will have opportunities to geocache (scavenger hunt), cook over a campfire, and explore the great outdoors. Students should be prepared to put on many walking and climbing miles so endurance is a must. Expectations will be high as students will be asked to follow directions and be on their best behavior. (Safety concerns can come into play if students are not able to follow safety rules.) Bring your sneakers and water bottles and leave those flip flops at home because this course is for the adventurer in all of us!! Students will be expected to dress for the weather as we will explore rain or shine. Lunch will NOT be provided, and students will need to bring their own. If you have taken this class before, please do not sign up for this session.</p>

Crash Course: D & D and Storytelling! (4 weeks)	Grades 6 - 8	June 5	June 29	M - Th	12:00 pm	3:00 pm	MAMS Learning Commons	David Donyes
D&D is a creative fantasy roleplaying game where players control a character and guide their fate in the adventure through various choices, gameplay mechanics, creative problem-solving, and collaborative skills. Each of these skills are built through the process of playing out a set adventure run by one facilitator (the DM/teacher) and altered by the choices made by the group of adventurers (the players). Groups of 4-6 players will be presented with a quest/goal, will be given supplies/ challenges unique to their positions in the game, and enemies/social encounters that will rise up in response to their choices throughout the game. This course will have high levels of input and collaboration from/with students and can be a very rewarding team building exercise.

Criminology Credit: 0.5 Elective	Grades 9-12	June 5	June 29	M - TH	8:00 am	9:30 am	Online/Live Instruction	
<p>In today's society, crime and deviant behavior are often one of the top concerns of society members. From the nightly news to personal experiences with victimization, crime seems to be all around us. In this course, we will explore the field of criminology or the study of crime. In doing so, we will look at possible explanations for crime from psychological, biological, and sociological standpoints, explore the various types of crime and their consequences for society, and investigate how crime and criminals are handled by the criminal justice system. Why do some individuals commit crimes but others don't? What aspects in our culture and society promote crime and deviance? Why do individuals receive different punishments for the same crime? What factors shape the criminal case process, from arrest to punishments? Independent work time: 9:30 am -11:30 am.</p>

<p>Fingerprints. Blood spatter. DNA analysis. The world of law enforcement is increasingly making use of the techniques and knowledge from the sciences to better understand the crimes that are committed and to catch those individuals responsible for the crimes. Forensic science applies scientific knowledge to the criminal justice system. This course focuses on some of the techniques and practices used by forensic scientists during a crime scene investigation (CSI). Starting with how clues and data are recorded and preserved, the student will follow evidence trails until the CSI goes to trial, examining how various elements of the crime scene are analyzed and processed. Work Time: 8:30-9:45 a.m. & 11:15 a.m.-12:00 p.m.</p>

<p>Self-knowledge is the key to self-improvement! More than 800,000 high school students take psychology classes each year. Among the different reasons, there is usually the common theme of self-discovery! Sample topics include the study of infancy, childhood, adolescence, perception, and states of consciousness. Amazing online psychology experiments dealing with our own personal behavior are featured within this course. Independent Work Time: 9:30 - 11:30 a.m.</p>								
Creative Writing Credit: 0.5 Elective	Grades 9-12	June 5	June 29	M - TH	11:30 am	1:00 pm	Online/Live Instruction	
<p>For many hundreds of years, literature has been one of the most important human art forms. It allows us to give voice to our emotions, create imaginary worlds, express ideas, and escape the confines of material reality. Through creative writing, we can come to understand ourselves and our world a little bit better. This course provides students with a solid grounding in the writing process, from finding inspiration to building a basic story to using complicated literary techniques and creating strange hybrid forms of poetic prose and prose poetry. By the end of this course, students will learn how to discover their creative thoughts and turn those ideas into fully realized pieces of creative writing. Independent Work Time: 9:30 - 11:30 a.m.</p>
