DATE REVISED: January 27, 2020

Medford Area Public School District Board of Education recognizes that optimal educational achievement for students enrolled in a school setting will be best served by considering the following criteria when determining both school and class sizes:

- Ages of the students being assigned to the class.
- Number of at-risk or special needs students.
- Facility limitations.
- Available financial resources.
- Staffing limitations.

Using these considerations, administration will establish class size guidelines and make recommendations subject to board approval.
