Abridged Formulary Guide

SecurityHealth PlanSM

Promises kept, plain and simple.[®]

Understanding your pharmacy benefit can save you money

Get the most value out of your pharmacy benefit by reviewing the medications covered under your plan. Taking time to understand how your pharmacy benefit works can help lower your out-of-pocket medication costs. Your pharmacy benefit includes coverage for many medications. We've listed some of the most common medications in this abridged formulary.

Tip: Looking for a complete list of medications covered under your plan? Visit www.securityhealth.org, click on Prescription Tools, then 2017 Group Plans or 2017 Individual and Family Plans. You can also call our Pharmacy Services Department at 1-877-873-5611 or 715-221-9604.

How the formulary works

A team of on-staff physicians and pharmacists review information on new and existing drugs and regularly update the formulary with drugs that are safe and effective. Our goal is to ensure that you have access to quality, cost-effective medications.

Medications are assigned to tiers. Each tier has different cost sharing depending on your coverage as noted in the table below:

Medication Tier	Types of medications	Cost Sharing
1	Most generics	Lowest cost share
2	Preferred brands/select generics	Middle cost share
3	Non-preferred brands/select generics	Higher cost share
4	Specialty medications and some very high cost brand/generic medications	Highest cost share

*Certain medications are not covered and are considered non-formulary (NF). A member may request a medical exception for a non-formulary prescription medication or medical supply. The exception request may be initiated by the member, or a provider acting on behalf of the member, in writing or by verbal request. For a copy of the formulary exception policy or to start a formulary exception request please contact the Pharmacy Services Department at the number listed below.

If your plan only has 3 medication tiers, all tier 4 medications will have the same cost share as tier 3.

You have coverage for preventive medications

In addition to a healthful lifestyle, preventive medications are important in helping you avoid many types of illnesses and complications from illnesses. You'll notice some preventive medications are covered at 100 percent to make it easier for you to get the medications you need for your health.

Have questions? We're here to help.

Please contact Security Health Plan if you have questions or need to request a prior authorization or a formulary exception.
