DATE ADOPTED: July 19, 2001 **FILE SECTOR:** PERSONNEL
DATE REVISED: October 20, 2005 **POLICY TITLE:** NETWORK USE – STAFF
DATE REVISED: October 29, 2012
DATE REVISED: October 29, 2018
DATE REVISED:

Medford Area Public School District (MAPSD) provides network access. These resources will be integrated where appropriate in the PreK-12 curriculum. As users of MAPSD network resources, it is essential that each user recognize their responsibility in having access to vast services, sites and people. The user is ultimately responsible for their actions in accessing network services and for adhering to district use policies, procedures and guidelines.

For this policy, network is defined as the district's servers and internet.

In the environment of a network, it is impossible to control all material. MAPSD believes that the valuable information and interaction available on this network far outweigh the possibility that staff may procure material that is not consistent with the educational goals of the district. Focus is on providing individual students with the understanding and skills needed to use the network in ways appropriate to their educational needs.

Users shall not access or use email or other computerized communication systems to relay threatening, intimidating, abusive or harassing messages. Such use may result in criminal sanctions consistent with state law.

Users shall not impose their choices on others, access private files, attempt to break security systems, copy software illegally, or use computer supplies that are not for school-related activities.

Users accessing district network systems may not corrupt network integrity by deliberately allowing inappropriate and/or dangerous files (i.e. viruses) to enter the system.

Any use of the network to facilitate illegal activity is prohibited and will be reported to the appropriate authorities.

Copyrighted material may not be placed on the network without the copyright owner's permission.

Users are responsible for the ethical and educational use of their own accounts. These accounts are to be used only by the authorized owner of the account for the authorized purposes. Users shall not intentionally obtain copies of and/or modify files or passwords belonging to other users.

The district is not responsible for the accuracy or quality of information obtained through its network service. The district is also not responsible for any damages the user suffers, including loss of data resulting from delays, non-deliveries, mis-deliveries, hardware system problems or service interruptions. Use of any information obtained via district technology is at the user's risk.

Administrators may establish additional rules and procedures that they deem necessary to ensure proper use of the network in their buildings.

Staff has the responsibility of making the educational goal clearly understood to the student. In addition, it is the responsibility of staff to inform students of their responsibilities when accessing the networks and the proper etiquette for their use.

Responsibility and Consent

Though the district does employ some types of filtering software it does not have complete control of information on the network. Therefore, information which users have access to may include material that is illegal, defamatory, inaccurate or potentially objectionable to some people.

The user is responsible for their actions using the network. Unacceptable uses may result in disciplinary action. Typical types of unacceptable use may be, but are not limited to, accessing for personal monetary gain, pornography, endangering the health/safety of others, gambling, union activity and/or use in any manner so as to cause damage or disruption to the system (but shall not pre-empt non-profit personal use such as accessing personal email.) MAPSD administration will determine what is “unacceptable use” and such decisions are final.

Medford Area Public School District (MAPSD) may develop, display and maintain a website on the network. For this policy, network is defined as the district's servers and internet.

- MAPSD district website shall be developed and controlled under the supervision of staff designated by the district administrator or his/her designee or building administrators. No one else is authorized to add, change or alter district web pages.
- School employees and/or their designees who create web pages representing the district that are not housed on district resources (i.e. Social Media, Weebly, Google sites) are still subject to all policies.
- When identifying students on district web pages:
 - District websites may include a student's full name, grade or class.
 - Group pictures may be used without identification of individual students.
 - Photos of individual students may be used, but only with permission of the student if 18 or older or the parent(s)/guardian(s). However, due to the public nature of the activities, participation in extracurricular activities or clubs provides inherent permission to identify students while participating.
- District web pages may not include any information that indicates the physical location of specific students at specific times, other than attendance at a particular school, or participation in activities.
- District web pages shall meet the criteria established under district policy. District web pages shall not be linked to sites that do not meet the same criteria.
- As specified in board policy, no unlawful copies of copyrighted material may be knowingly produced or transmitted via school equipment. This includes all material published on the web page, including any graphics, audio or video.
- Staff may use district web pages to provide information to the public on school programs and events, curriculum, policies, staff and student accomplishments, and so on. However, district web pages are not to be used as "personal web space" as these pages are official publications of the district.
- District web pages shall be maintained and updated on a regular basis.

Any deliberate tampering with or misuse of the MAPSD network services or equipment will be considered vandalism and subject to appropriate disciplinary measures.

POLICY TITLE: PRE-EMPLOYMENT DRUG TESTING

It is policy of Medford Area Public School District (MAPSD) to be consistent with its obligations under state and federal law to establish and maintain drug-free schools and workplaces, to require applicants for covered positions to consent to a pre-employment, post-offer drug test.

Securing a drug-free environment is vital to MAPSD's duty to comply with legal mandates and its obligation to promote the health, welfare, safety and education of students and employees. Because MAPSD employees render services to students, serve as role models for students, act as enforcers of student drug policies and constitute potential sources of illegal drugs for students MAPSD has a compelling interest in eliminating illegal drug use from its workplaces and in ensuring that its employees are drug-free.

No offer of employment for a covered position shall be made to any applicant who has not agreed to submit to a drug test as part of the employment screening process. Any applicant who receives a conditional offer of employment and refuses to take a drug test shall be disqualified from further consideration for the position.

All applicants for covered positions shall receive written notice of this drug testing policy prior to receiving conditional offers of employment. All drug test results from an applicant shall be maintained as a confidential record and shall be released only with the express, written consent of the applicant.
