### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### *Opinions*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter***

As discussed in Note 1B of the notes to the basic financial statements, the District has implemented Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities* during the year ended June 30, 2021.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that budgetary comparison information, the schedules of changes in the District's net OPEB liability and related ratios and District's contributions, and the schedules of District's proportionate share of the net pension liability (asset) and District's contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. Management has not presented a management's discussion and analysis that governmental accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

#### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

This other supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 07, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET POSITION  
June 30, 2021**

Total fund balances - governmental funds	\$	7,088,667
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of the assets is \$48,054,127 and the accumulated depreciation is \$28,197,887.		19,856,240
The net OPEB liability related to the District's postemployment benefits is not a financial resource and therefore is not reported as a liability in the governmental funds. The net OPEB liability of \$2,296,928 and deferred inflows of resources of \$67,112 is more than the deferred outflows of resources of \$1,812,927.		(551,113)
Net pension asset and deferred outflows and inflows related to the pension are not financial resources and therefore are not reported in the governmental fund statements. This is the amount by which deferred outflows of resources related to pensions of \$9,644,736 plus the net pension asset of \$6,048,107 exceeds the deferred inflows of resources related to pensions of \$13,244,031.		2,448,812
Long-term liabilities, such as notes payable and deferred debt issuance premium and discount are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due. Such liabilities - both current and long-term are reported in the statement of net position as follows:		
Accrued interest on notes		(12,050)
G.O. promissory notes	\$ (729,400)	
Premium on G.O. promissory notes	<u>(13,361)</u>	
Total long-term liabilities		<u>(742,761)</u>

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND**  
**BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
**Year Ended June 30, 2021**

Net change in fund balances—Total governmental funds \$ 696,143

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense.

Capital outlay reported in governmental fund statements	\$ 760,320	
Depreciation expense reported in the statement of activities	(752,157)	8,163

Discounts and premiums related to the long-term debt are reflected as a current expenditure in the governmental funds. These amounts are shown as an other asset in the statement of net position and amortized over the term of the bonds. The adjustment for these items is as follows:

Amortization of discounts and premiums		49,272
--	--	--------

Principal payments on long-term debt are expenditures in the governmental funds, but these repayments reduce long-term liabilities in the statement of net position.		2,210,600
--	--	-----------

The employer share of pension expense incurred after the net pension liability measurement date of December 31, 2020 and through June 2021 is shown as an expenditure in the fund financial statements when due, and thus requires the use of current financial resources. In the statement of activities however, this amount is reported as a deferred outflow of resources since these contributions occur subsequent to the measurement date used to record the net pension liability.

Prior year deferred outflows for contributions made during the current measurement period	(657,740)	
Contributions subsequent to the measurement date from January 1, 2021 through June 30, 2021	702,698	
Adjustment for the difference in basis of pension expense reporting for government-wide financial statements	1,777,001	1,821,959

Certain employee benefits are reported in the governmental funds when amounts are paid. The statement of activities reports the change in the net OPEB liability during the year as an expense.

This is the increase in the net OPEB obligation for the year.	(529,590)	
Deferred inflows of resources related to OPEB will be recognized in OPEB expense.	490,840	
Contributions subsequent to the measurement date from July 1, 2020 through June 30, 2021 are recorded in the statement of net position as a deferred outflow.	265,011	226,261

Some expenses and revenues reported in the statement of activities do not require the use of current financial resources or uses and therefore are not reported as expenditures or income in governmental funds. These are the following:

Donation Receivable - Promise to give for athletic complex.	(20,000)	
Accrued interest payable	500	(19,500)

Change in net position of governmental activities		\$ <u>4,992,898</u>

**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2021**

**Note 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the Medford Area Public School District ("District") conform to accounting principles generally accepted in the United States of America applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

**A.            REPORTING ENTITY**

The Medford Area Public School District is organized as a common school district. The District, governed by a nine member elected school board, operates grades K through 12 and is comprised of all or parts of fourteen taxing districts. This report includes all of the funds of the District. The reporting entity for the District consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government.

Component units are reported using one of three methods, discrete presentation, blended or fiduciary. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exist, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operation responsibility for the component unit, (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

**Fiduciary Component Units**

**The Medford Area Public School District Post-Employment Benefits Trust ("Plan")**

The fiduciary financial statements include the Plan as a component unit. The Plan is a legally separate organization. The Plan does not have a formal board, however the District is the Trustee of the Plan and the District can impose its will on the Plan and also create a potential financial benefit to or burden on the District. See Note 8. As a component unit, the Plan's financial statements have been presented within the fund-type column within the fiduciary funds of the District. The information presented is for the fiscal year ended June 30, 2021. The Plan does not issue separate financial statements.

**B. BASIS OF PRESENTATION**

**New Accounting Principle**

The Governmental Accounting Standards Board (GASB) has issued GASB Statement No. 84, Fiduciary Activities, the Statement replaces existing GASB statements to enhance consistency and comparability of identifying activities that should be reported as fiduciary activities. The District has adopted these standards for the year ended June 30, 2021, and previously reported Student Activities Fund is no longer reported in the fiduciary funds as it is required administrative involvement.

The implementation of GASB No. 84 requires a retroactive adjustment to the beginning fund balances. See below for details of new position/fund balance restatements required by the Statement.

**District-wide Financial Statements**

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

**Note 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**B.            BASIS OF PRESENTATION (Continued)**

**District-wide Financial Statements (Continued)**

The statement of activities demonstrates the degree to which the direct expenses of given functions or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Internally dedicated resources are reported as general revenues rather than as program revenues.

**Fund Financial Statements**

Fund financial statements of the reporting entity are organized into funds each of which are considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund equity, revenues, and expenditures.

Funds are organized as major funds or non-major funds within the governmental, proprietary and fiduciary statements. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. Total assets, liabilities, revenues or expenditures of the individual governmental or enterprise fund are a least 5 percent of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental fund that the District believes is particularly important to financial statement users may be reported as a major fund.

**B.            BASIS OF PRESENTATION (Continued)**

**Governmental Funds**

Governmental funds are identified as general, special revenue, debt service, capital projects, or permanent funds based upon the following guidelines.

*General Fund*

The General Fund is the general operating fund of the District and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted for in another fund, except that the special education fund, a required fund mandated by the Wisconsin Department of Public Instruction, does not meet the GAAP definition of a special revenue fund and is reported in the general fund for financial reporting purposes.

*Special Revenue Funds*

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects or expendable trusts) that are legally restricted to expenditures for specified purposes. The Package/Cooperative Fund is used to account for tuition charges to other districts for their students' involvement in the Rural Virtual Academy (RVA) distance learning program.

*Capital Projects Funds*

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

*Debt Service Funds*

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

*Permanent Funds*

Permanent funds are used to account for resources legally held in trust. All resources of the fund, including any earnings on invested resources, may be used to support the organization.

**Proprietary Funds**

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal value. Nonoperating revenues, such as interest earnings, result from nonexchange transactions or ancillary activities.

The food service fund is identified as the lone proprietary fund of the District based upon the following guideline:

The food service fund is used to account for the financial resources (primarily user fees and state and federal aid) used to support pupil and adult employee food service expenditures of the District.

**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2021**

**Note 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C.            BASIS OF ACCOUNTING**

The district-wide statement of net position and statement of activities and the financial statements of the proprietary and fiduciary funds are presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. For the Medford Area Public School District Post Employment Trust, plan member contributions are recognized when due and employer contributions are recognized when due and the District has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property tax revenues are recognized as revenue in the fiscal year levied as the District considers the property taxes as due prior to June 30. The District considers the taxes as due on February 1, the date from which interest and penalties accrue for non-payment of a scheduled installment. Full receipt of the entire levy is assured within sixty days of the school's fiscal year end. Receipt of the balance of taxes levied within sixty days meets the requirements for availability in accordance with generally accepted accounting principles applicable to governmental entities.

Property taxes are collected by local taxing districts until January 31. Real estate tax collections after that date are made by the county, which assumes all responsibility for delinquent real estate taxes.

The aggregate amount of property taxes to be levied for district purposes is determined according to provisions of Chapter 120 of the Wisconsin Statutes. Property taxes levied by the District are certified to local taxing districts for collection. Property taxes attach as an enforceable lien as of February 1. Taxes are levied on the assessed value as of the prior January 1.

Property tax calendar – 2020 tax roll:

Lien date and levy date	October, 2020
Tax bills mailed	December, 2020
Payment in full, or	
First installment due	January 31, 2021

**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2021**

**Note 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C.            BASIS OF ACCOUNTING (Continued)**

State general and categorical aids and other entitlements are recognized as revenue in the period the District is entitled to the resources and the amounts are available. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred and the amounts are available. Amounts owed to the District which are not available are recorded as receivables and deferred revenue. Amounts received prior to the entitlement period are also recorded as deferred revenue.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, expenditure-driven grant programs, public charges for services, and investment income.

Charges for services provided to other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special education aid entitlements.

For governmental fund financial statements, deferred revenues arise when potential revenues do not meet both the “measurable” and “available” criteria for recognition in the current period. Deferred revenues also arise when resources are received before the District has a legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

**D.            MEASUREMENT FOCUS**

On the district-wide statement of net position and statement of activities, governmental activities are presented using the economic resources measurement focus. Under this concept, revenues and expenses are matched using the accrual basis of accounting.

The measurement focus of all governmental funds is the flow of current financial resources concept. Under this concept, sources and uses of financial resources, including capital outlays, debt proceeds and debt retirements are reflected in operations. Resources not available to finance expenditures and commitments of the current period are recognized as deferred revenue or a reservation of funds equity. Liabilities for claims, judgments, compensated absences and pension contributions which will not be currently liquidated using expendable available financial resources are included as liabilities in the district-wide financial statements but are excluded from the governmental fund financial statements. The related expenditures are recognized in the governmental fund financial statements when the liabilities are liquidated.

**E.            INVENTORIES**

Governmental and proprietary fund inventories are recorded at cost based on the FIFO (first-in, first-out) method using the consumption method of accounting.

**MEDFORD AREA PUBLIC SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2021**

**Note 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**F.            LONG-TERM OBLIGATIONS**

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the district-wide or fund financial statements.

All long-term debt to be repaid from governmental resources is reported as a liability in the district-wide statements. The long-term debt consists primarily of notes, bonds or loans payable, capital leases and accrued compensated absences.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest are reported as expenditures.

**G.            CAPITAL ASSETS**

**District-Wide Statements**

In the district-wide financial statements and the proprietary fund statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation.

The District capitalizes all capital asset additions of \$5,000 or more. Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

- Site Improvements	10-20 years
- Buildings	50 years
- Building Improvements	20 years
- Furniture and equipment	5-15 years
- Computer and related technology	5 years
- Library books	7 years

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend its life are not capitalized.

**Fund Financial Statements**

In the fund financial statements, capital assets used in governmental funds are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

**MEDFORD AREA PUBLIC SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2021**

**Note 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**H.            INTERFUND RECEIVABLES AND PAYABLES**

During the course of operations transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as “due to and from other funds.” Long-term interfund loans (noncurrent portion) are reported as “advances from and to other funds.” Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position.

**I.            BUDGETS**

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note 1.C.

The budgeted amounts presented include amendments adopted during the year. Transfers between functions and changes to the overall budget must be approved by a two-thirds board action. There were no supplemental appropriations during the year. Appropriations lapse at year end unless specifically carried over. There were no carryovers to the following year. Budgets are adopted at the function level for all other funds.

**J.            ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS**

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

**K.            DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES**

As applicable, the statements of net position and balance sheets report a separate section for deferred outflows of resources after total assets and for deferred inflows after total liabilities. These are distinct and separate financial statement elements which represent the net position that applies to future periods and thus will not be recognized as an outflow (expense) or inflow (revenue) until that time. The District has three items that qualify as deferred outflow of resources; deferred outflows related to promises to give, pensions and OPEB. The District has one item that qualifies as a deferred inflow of resources related to pensions.

**L.            PENSIONS AND POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)**

*Pensions:* For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS’ fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**MEDFORD AREA PUBLIC SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2021**

**Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**L. PENSIONS AND POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)**

*OPEB:* For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Post Employment Trust ("Plan") and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with benefit terms.

Investments are reported at fair value, except for money market investments and interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

**M. OTHER ASSETS**

In governmental funds, debt issuance discounts are recognized in the current period. For the district-wide financial statements, governmental activity debt discounts are amortized over the life of the debt issue.

**N. CLAIMS AND JUDGMENTS**

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the governmental funds. If they are not to be liquidated with expendable available financial resources, no liability is recognized in the governmental fund statements. The related expenditure is recognized when the liability is liquidated. Claims and judgments are recorded in the district-wide financial statements as expense when the related liabilities are incurred. There were no significant claims or judgments at year end.

**O. INTERFUND TRANSACTIONS**

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

**P. CASH AND CASH EQUIVALENTS**

The District's cash and cash equivalents consist of cash on hand, time and demand deposits with financial institutions, balances in the state investment pool and investments with original maturities of three months or less from the date of acquisition. Investments are stated at fair value in accordance with GASB Statement No. 72 *Fair Value Measurement and Application*, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. Adjustments necessary to record investments at fair value are recorded in the operating statement as an increase or decrease in investment income. Investment income on comingled investments of District funds is allocated to funds based on average cash balance and estimate average interest rate.

**NOTES TO FINANCIAL STATEMENTS**

**Note 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Q. FAIR VALUE MEASUREMENT**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These guidelines recognize a three-tiered fair value hierarchy, as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the District has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2021.

*Mutual Funds:* Valued at the daily closing prices as reported by the fund. Mutual funds held by the District are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the District are deemed to be actively traded. Open-end mutual funds are required to publish their daily net asset value (NAV) and to transact at that price. Close-end mutual funds are valued at the closing price reported on the active market on which the securities are traded.

*Equity Securities:* Valued at the daily closing prices as reported by the security. Equity securities held by the District are registered with the Securities and Exchange Commission. The equity securities held by the District are deemed to be actively traded.

*External Investment Pool:* Valued at amortized cost, which approximates fair value. The District participates in the Local Government Investment Pool, which is part of the State Investment Fund. The State Investment Fund is invested in highly liquid, short-term fixed income securities.

*Fixed Income Securities:* District holds fixed income securities which are investments in debt instruments issued by a governmental agency to finance and expand the governmental agency's operations. These securities provide the District with a return in the form of fixed period payments and eventual return of principal upon maturity. These securities are priced using evaluated price provided by an independent pricing vendor or broker/dealer.

**R.            EQUITY CLASSIFICATIONS**

**District-Wide Statements**

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.
- b. Restricted net position – Consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that does not meet the definition of “restricted” or “net investment in capital assets”.

**Fund Statements**

Governmental funds:

Equity is classified as fund balance and displayed in five possible components:

- a. Nonspendable – Consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- b. Restricted net assets – Consists of amounts with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Committed – consists of amounts that are imposed by formal action of the Board of Education, the government’s highest level of decision-making authority. A committed fund balance may be established, modified or removed only by a majority vote (2/3) of the elected school board.

R.            EQUITY CLASSIFICATIONS (Continued)

**Fund Statements (Continued)**

Governmental funds (Continued):

- d. Assigned – consists of amounts that are constrained by the District’s intent to be used for specific purposes, but are neither restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. The Board of Education delegates to the Director of Business Services or his/her designee the authority to assign amounts to be used for specific purposes. Such assignments cannot exceed the available (spendable, unrestricted, uncommitted) fund balance in any particular fund.
  
- e. Unassigned – consists of residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification should be used only to report a deficit balance from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it shall be the policy of the District to consider restricted amounts to have been reduced first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, the policy is that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts.

Minimum fund balance policy:

The District will maintain a minimum unassigned fund balance in its general fund ranging from 15 to 20% of the subsequent year’s budgeted expenditures and outgoing transfers. This minimum fund balance is to protect against cash flow shortfalls related to timing of projected revenue receipts and to maintain a budget stabilization commitment.

Surplus fund balance:

Should unassigned fund balance of the general fund ever exceed the 20% range noted in the minimum fund balance policy, the excess will be considered for one-time expenditures that are nonrecurring in nature and which will not require additional future expense outlays for maintenance, additional staffing, or other recurring expenditures.

Proprietary funds:

Equity is classified the same as equity for the district-wide statements.

**S. USE OF ESTIMATES**

In preparing financial statements in conformity with accounting principles generally accepted in the U.S., management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Note 2 CASH AND INVESTMENTS**

Investment of District’s cash deposits and investments is restricted by state statutes. Available investments are limited to:

1. Time deposits in any credit union, bank, savings bank, trust company or savings and loan association maturing in three years or less.
2. Bonds or securities of any county, city, drainage district, technical college district, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, Wisconsin Aerospace Authority or the Wisconsin Aerospace Authority, or by the University of Wisconsin Hospitals and Clinics Authority.
3. Bonds or securities issued or guaranteed as to principal or interest by the federal government, or by commission, board or other instrumentality of the federal government.
4. The local government pooled- investment.
5. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
6. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
7. Repurchase agreements with public depositories, with certain conditions.

Investment of the trust funds in the employee benefit trust fund is regulated by Wisconsin Statutes Chapter 881 and this guidance allows investment in equity securities, bonds and debentures.

Custodial credit risk – Deposits:

Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of June 30, 2021, \$6,471,506 of the District’s bank balance of \$7,400,129 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 23,606
Uninsured and collateralized by securities held by the pledging institution's agent not in the name of the District	6,447,900
	\$ 6,471,506

Fluctuating cash flows during the year due to tax collections, receipt of state aids, and borrowings may have resulted in temporary balances exceeding insured amounts by substantially higher amounts than reported at the balance sheet date. The difference between the bank balance and carrying value is due to outstanding checks and/or deposits in transit.

**Note 2 CASH AND INVESTMENTS (Continued)**

Deposits in each local and area bank are insured by the FDIC up to \$250,000 for time and savings accounts and \$250,000 interest-bearing demand accounts. Bank accounts and the local government investment pool are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may not be significant to individual organizations. This coverage has been considered in computing custodial credit risk relative to deposits.

Fair Value – Investments:

At June 30, 2021, the District had the following recurring fair value measurements.

	Level 1	Level 2	Level 3	Total
Bond mutual funds	\$ 739,115	\$ -	\$ -	\$ 739,115

Bond mutual funds (7 funds)	2.8 and 9.4 years	\$ 739,115

Interest rate risk – Investments:

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The average maturities of the local government investment pool and investments are disclosed in the table above.

Custodial credit risk – Investments:

Custodial credit risk is the risk that in the event of the failure of the counterparty, The District will not be able to recover the value of its investments that are in possession of an outside party. The District does not have a policy for custodial risk relative to its investments. As of June 30, 2021, the entire amount of the District’s investments in its employee benefit trust totaling \$2,375,586 was exposed to custodial credit risk.

Credit risk – Investments

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the District. The debt securities are investments in U.S. agencies and all carry the explicit guarantee of the U.S. government. Bond mutual funds (seven funds and one municipal bond issue at June 30, 2021) in the employee benefit trust fund obtain credit quality ratings for each fund using statistics derived from the Morningstar rating for each fund. Morningstar derives its ratings from fund companies using ratings that have been assigned by a Nationally Recognized Statistical Rating Organization (NRSRO). If two NRSRO’s have rated a security, it is reported at the lowest rating; if three or more NRSRO’s have rated the same security differently, the middle rating is used. Morningstar then combines credit rating information from the NRSRO’s with an average default rate calculation to come up with a weighted-average credit quality, currently a letter that roughly corresponds to the scale used by a leading NRSRO. In this scale, lower credit quality starts with B and goes to AAA+ for highest credit quality.

The percentages of investments in this fund and credit quality ratings at June 30, 2021 follows:

<u>Range of ratings by by each mutual bond fund</u>	<u>Percentage of Holdings</u>	<u>Dollar amount of investments</u>
AAA	47.63%	\$ 352,009

**Plan Description**

The Wisconsin Retirement System (“WRS”) is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee’s date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

**Vesting**

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**Benefits Provided**

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and executive service plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee’s contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

**Post-Retirement Adjustments**

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system’s consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the “floor”) set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2011	-1.2%	11.0%
2012	-7.0%	-7.0%
2013	-9.6%	9.0%
2014	4.7%	25.0%
2015	2.9%	2.0%
2016	0.5%	-5.0%
2017	2.0%	4.0%
2018	2.4%	17.0%
2019	0.0%	-10.0%
2020	1.7%	21.0%

**Contributions**

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$1,129,118 in contributions from the employer.

At June 30, 2021, the District reported a liability (asset) of (\$6,048,107) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2019 rolled forward to December 31, 2020. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2020, the District's proportion was 0.09687607%, which was an increase of 0.00401441% from its proportion measured as of December 31, 2019.

For the year ended June 30, 2021, the District recognized pension income of \$646,111.

**Actuarial Assumptions (Continued)**

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. The total pension liability for December 31, 2020 is based upon a roll-forward of the liability calculated from the December 31, 2019 actuarial valuation.

*Long-term expected Return on Plan Assets.* The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Core Fund Asset Class	Current Asset Allocation	Long-Term Expected Nominal Rate of Return	Long-Term Expected Real Rate of Return

**Note 7      DEFINED BENEFIT PENSION (Continued)**

**Actuarial Assumptions (Continued)**

*Single Discount Rate.* A single discount rate of 7.00% was used to measure the Total Pension Liability for the current and prior year. This single discount rate is based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 2.00% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-year Municipal GO AA Index” as of December 31, 2020. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability

*Sensitivity of the District’s proportionate share of the net pension liability (asset) to changes in the discount rate.* The following presents the District’s proportionate share of the net pension liability (asset) calculated using the discount rate of 7.00 percent, as well as what the District’s proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease to Discount Rate (6.00%)	Current Discount Rate (7.00%)	1% Increase to Discount Rate (8.00%)
District's proportionate share of the net pension liability (asset)    \$	5,756,960	\$ (6,048,107)	\$ (14,718,841)

*Pension plan fiduciary net position.* Detailed information about the pension plan’s fiduciary net position is available in separately issued financial statements available at <http://etf.wi.gov/publications/cafr.htm>.

**Payables to the pension plan**

As of June 30, 2021 the District has accrued liabilities totaling \$420,125 relating to the pension plan. This amount represents legally required contributions based on the June 2021 payroll reporting period.

**General Information about the OPEB Plan**

*Plan Description.* Medford Area Public School District’s Post Employment Trust (“Plan”) provides other postemployment benefits (OPEB) benefits to eligible retirees and their spouses; currently this consists of teachers, administrators, and support staff. The District’s Plan is a single-employer defined benefit post-employment welfare benefits plan. The Plan’s authority is governed by the trust document and the laws of the State of Wisconsin. Amendments to the Plan may be made at any time by the District, who is the sole trustee of the Plan. The Plan does not issue a publicly available financial report.

*Plan membership(as of the June 30, 2020 measurement date):*

Inactive plan members and beneficiaries receiving benefits	14
Inactive plan members and beneficiaries entitled to but not yet receiving benefit payments (waived coverage)	11
Active plan members	360
	385

*Benefits Provided.* The Plan provides healthcare benefits for retirees and their dependents. Benefits are provided through a third-party insurer, and the full cost of the benefits is covered by the plan. The trust document grants the District the authority to establish and amend the benefit terms.

*Employees covered by benefit terms.* At June 30, 2021, the following employees were covered by the benefit terms:

	<u>Percent of Premium</u>	<u>Administrators</u>	<u>Teachers</u>	<u>Support Staff</u>
Employer	90% if hired prior to 7/1/2004 for a period of 8 years Specified credit if hired 7/1/2004 to 7/1/2005	\$39,160 for 15 years of service \$41,160 for 20 years of service \$43,160 for 25 years of service \$48,160 for 30 years of service	\$39,160 for 15 years of service \$41,160 for 20 years of service \$43,160 for 25 years of service \$48,160 for 30 years of service	Up to a total of \$17,000 \$18,000 for 20 years of service \$19,000 for 25 years of service \$21,000 for 30 years of service

**General Information about the OPEB Plan (Continued)**

Covered employee groups must meet the following eligibility guidelines:

**Administration:** Must be at least 55 years of age with a minimum of 12 years of service in the district or no less than a total of 25 years of teaching and administrative experience in the District. See table for contribution amounts and percentages the District will contribute towards medical premiums on behalf of this retiree until Medicare-eligibility or death, whichever occurs first.

**Teachers:** Must be at least 55 years of age with a minimum of 15 years of service in the district. See table for contribution amounts and percentages the District will contribute towards medical premiums on behalf of this retiree until Medicare-eligibility or death, whichever occurs first.

**Support staff:** Must be at least 55 years of age with a minimum of 15 years of service in the district. See table for contribution amounts and percentages the District will contribute towards medical premiums on behalf of this retiree until Medicare-eligibility or death, whichever occurs first.

*Contributions.* The District shall make contributions to the trust from time to time, as it deems appropriate or legally required. The District has no legal obligation to contribute to the trust. Prior to the July 1, 2015 measurement period, the Plan was fully funded by making actuarially determined contributions to the Plan. The only Plan members required to contribute are the administrators hired prior to 7/1/2004 as noted in the previous table. For the year ended June 30, 2021, plan members contributed \$0 or 0% of total premiums.

*Implicit rate subsidy.* This exists when an employer's retirees and current employees are covered together as a group wherein the premium rate or equivalent rate paid by the retirees may be lower than they would if the retirees were rated separately.

Of eligible Administrators hired between July 4, 2004 and July 1, 2005 and Teachers hired prior to July 1, 2020, who are currently electing coverage on the District's group health plan, 60% were assumed to use their medical credit to remain on the District's plan. Further, one-half of these individuals (i.e., 30%) were assumed to remain on the District's plan upon exhaustion of their credit by self-paying the full amount (100%) of the Support Staff hired prior to July 1, 2020, who are currently electing coverage, 30% were assumed to use their credit to remain on the District's plan and one-half of these individuals (i.e., 15%) were assumed to remain on the plan until Medicare eligibility upon exhaustion of their credit, if retiring prior to July 1, 2026.

20% of Administrators hired after July 1, 2005 and Teachers and Support Staff hired after July 1, 2020, currently electing coverage were assumed to continue to participate in the District's group medical plan in retirement for 18 months at the Single coverage level. The liability incurred on behalf of the above assumptions was calculated and included in the valuation.

*Investment policy.* The Plan's policy in regard to the allocation of invested assets is established and may be amended by the District by a majority vote of its members. It is the policy of the Plan to invest in assets as permitted by Wisconsin State Statutes.

*Concentrations.* The Plan did not have any investments that represent 5 percent or more of the OPEB Plan's fiduciary net position.

*Rate of Return.* For the year ended June 30, 2021, the annual money-weighted rate of return on the investments, net of investment expense was 12.13% percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTES TO FINANCIAL STATEMENTS

**Note 8 OTHER POST EMPLOYMENT BENEFITS (Continued)**

**Net OPEB Liability of the District (continued)**

*Actuarial Assumptions.* The total OPEB liability as of a measurement date of June 30, 2020, was determined by using roll-forward information from the actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.00 percent
Salary increases	Ranging from 5.6% for year one to .1% at year 35
Investment rate of return	2.25 percent - expected long-term rate of return
Healthcare cost trend rates	6.50% decreasing by .10% per year down to 5.0%, and level thereafter

The actuarial assumptions used in the June 30, 2020 valuation including mortality rates, were based upon an experience study conducted in 2018 using the Wisconsin Retirement System (WRS) experience study from 2015-2017 utilizing premium rate history of the District's medical plan as well as trends used in the prior valuation and projected a stream of expected premium rates for each year in the future based on the data as of June 30, 2020.

The long-term expected rate of return on OPEB plan investments was determined using the long-term expected rate of return equal to the 20-year AA municipal bond rate of 3.5%. Best estimates of the arithmetic real rates of return for each major asset class included in the target allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
All investments	2.25 percent - expected long-term rate of return

*Discount rate.* The discount rate used to measure the total OPEB liability was 2.25 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on the OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Note 11 RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded insurance coverage in any of the last three years. There were no significant reductions in coverage compared to the prior year.

**Note 12 COMMITMENTS AND CONTINGENCIES**

The District was a party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District's legal counsel that the likelihood is remote that any of these claims or proceedings will have a material adverse effect on the District's financial position or results of operations.

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

**Note 13 LIMITATION OF SCHOOL DISTRICT REVENUES**

Wisconsin statutes limit the amount of revenues that school districts may derive from general school aids and property taxes. The annual revenue increase from these sources is limited to an allowable per member increase which is determined by legislature.

This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

For the year ended June 30, 2021 the District did not exceed this limitation.

**Note 14 COVID-19**

On March 13, 2020, a national emergency was declared for the COVID-19 outbreak in the United States of America. This event affects the economy and financial markets. The extent of the impact on the District may be both direct and indirect and will vary based on the duration of the outbreak and other factors. 12-2-2021

To Whom It May Concern,

Please accept this letter as my formal resignation from my position as a Teacher's Assistant at Medford Area Senior High. My last day of attendance will be January 13<sup>th</sup> 2022, which is the last day of Finals for first semester. I have decided to accept the position of Senior Summer Camp Leader with Kid's Junction in Madison WI starting January 14<sup>th</sup> 2022. I understand that my departure will cause a disruption, and I will do everything within my ability to help facilitate the smooth transition of duties to my replacement.

My decision to resign is not due to any shortcomings from the high school or staff within the building, but rather in personal matters that could no longer be overlooked. With my new position in Madison I will not only be utilizing my current degree, that degree and prior experience has qualified me for a higher pay scale. With the increase in pay and hours not based on in student days, the financial stress of rent increase, and other financial increases will be greatly diminished

While working here, the support and encouragement I have received and the connections I have made, both professional and personal, have been invaluable. I will miss the challenging nature of my work and the enjoyable atmosphere and coworkers. I am and will always be grateful for all I learned while working at MASH and I hope to take these skills with me to my new position. Please let me know what I can do to help with the transition.

Thank you again for everything.

Best wishes,

Nicole Hanninen

DATE REVISED:**

Medford Area Public School District Board of Education (BOE) meetings are the backbone of the educational leadership pattern. It is here that educational laymen give consideration to the recommendations and reports of its executive officer, the district administrator.

The BOE may transact business only when it is in regular or special session with a physical quorum of five BOE members present. Proceedings must be recorded in meeting minutes.

It is the intent of the BOE that meetings shall be formal enough for orderly procedure but informal enough to be natural, encourage free discussion and promote critical thinking and action.

The BOE shall meet each month. At least 24 hours' public notice shall be given as to the meeting date, time, place and subject matter in accordance with state law including consideration for any contemplated closed session. Exception for shorter notice of not less than two hours is sufficient for good cause when 24-hour notice is impossible or impractical. The notice will be given to the public, news media who have filed a written request and the official newspaper.

BOE members are expected to notify the president or district administrator if they are unable to attend a meeting.

All meetings of the BOE shall be open to the public and press, unless otherwise legally noticed. Remote participation is allowed. Refer to policy BDA for guidelines.

The district administrator shall prepare all agendas for the board of education (BOE) meetings. The BOE president will be responsible for the final approval of the proposed agenda.

Items of business may be suggested by BOE members, staff, students or citizens of the district. Inclusion of these suggested items shall be at the discretion of the district administrator or BOE president. The regular meeting agenda, however, may allow time for brief public comment before the BOE.

The BOE shall follow the order of business set by the agenda unless the order is altered by a majority vote or consent of the members present. Items of business not on the agenda may not be discussed or acted on.

A consent grouping on the agenda may be used for those items which usually do not require discussion or explanation as to the reason for BOE action. All items on consent agenda will be acted upon under a single motion. Any item may be removed from the consent agenda prior to the motion and second to approve. All items removed from consent agenda will be considered separately.

The agenda and supporting materials shall be distributed to BOE members sufficiently prior to the meeting, if at all possible, to permit them to give items of business careful consideration.

POLICY TITLE: PUBLIC PARTICIPATION  
AT BOARD OF EDUCATION  
MEETINGS

In order to assure that people who wish to appear before the BOE may be heard and, at the same time, conduct its meetings properly and efficiently, the BOE adopts as rule the following procedures pertaining to public participation at BOE meetings.

Procedures to Address the BOE

There are three ways for the public to address the BOE at a meeting. ~~Any individual desiring to speak shall give their name, address and the group, if any, that is represented. All presentations should be as brief as possible. Unless an extension of time is granted in advance, by the president, a speaker shall be limited to five minutes.~~

- When a citizen of the district wishes to comment to the BOE under the standing agenda item "Period of Public Comment" they need only request recognition to be heard at the beginning of the meeting. Any individual desiring to speak shall give their name, address and the group, if any, that is represented. All presentations should be as brief as possible. Unless an extension of time is granted in advance, by the president, a speaker shall be limited to five minutes.
- A citizen of the district may request to comment at the meeting under a specific agenda topic. They must inform the district administrator or the BOE president at least 24 hours prior to the start of the meeting and shall describe the content of their presentation. The district administrator or BOE president will make a determination prior to the meeting as to whether or not they will be placed on the agenda.
- Letters to the BOE members and/or administrators will not be read/presented on a citizen's behalf. Such letters may be included in the next available BOE packet.

Rules of Order for Presenting to the BOE:

- Charges, Complaints or Challenges  
At a public meeting of the BOE no person shall orally initiate charges or complaints against individual employees of the district or challenge instructional materials used in the district. All such charges, complaints or challenges shall be presented to the district administrator or BOE in writing, signed by the complainant. All such charges, if presented to the BOE directly, shall be referred to the district administrator for investigation and report. Challenges of instructional materials used in the district are subject to the rules and regulations of BOE policy.

- Conduct and Remarks Out of Order  
Undue interruption or other interference with the orderly conduct of BOE business shall not be allowed. Defamatory or abusive remarks are out of order. The presiding officer may terminate the speaker's privilege of address if, after being called to order, they persist in improper conduct or remarks.
- Questions and Comments by BOE and District Administrator  
Members of the BOE and the district administrator may question a speaker or make comments in response to the speaker's remarks.
- Presidential Authority  
The BOE vests in the president, or other presiding officer, authority to terminate the remarks of any individual when they do not adhere to the rules established above.
- Full BOE Authority  
Persons appearing before the BOE are reminded, as a point of information that members of the BOE are without authority to act independently as individuals in official matters. Thus, questions may be directed to individual BOE members, but answers must be deferred pending consideration by the full BOE. The BOE may ask for clarification on matters brought up during the citizen participation period of the meeting agenda. The BOE shall not take action on any item of business not included in the meeting agenda notice.

Medford Area Public School District Board of Education (BOE) believes that one of the paramount responsibilities of a BOE is to keep the public informed of its deliberations, policies and actions. Therefore, the BOE encourages the attendance of media representatives at all meetings except closed sessions.

- A copy of the agenda will be sent in advance to members of the working press who request it. Additionally, all reports approved by the BOE shall be considered matters of official record and shall also be made available to the press. However, reports-in-progress on which the BOE has taken no final action shall be released only upon the BOE 's authority as "tentative reports."
- A press table, provided with extra working copies of the agenda shall be located near the BOE 's table to enable reporters to follow discussion without difficulty.
- In order that the BOE may transact its business with dispatch, questions from the press will not be entertained while meetings are in progress. However, a representative of the BOE will be available after each meeting to answer reporters' questions and to clarify points of discussion and action.
- When individual BOE members receive requests from news media representatives for information about BOE meetings, members are encouraged to refer the information-seekers to the BOE president who shall be the spokesperson for the BOE except as he or she specifically delegates this responsibility to others.

In the event that representatives of the news media are unable to attend a meeting, they shall be provided, upon request, with a summary of important BOE actions.

---

---

This policy shall be administered in accordance with the state public school open enrollment law.

Part I  
NONRESIDENT SCHOOL OPEN ENROLLMENT STUDENTS - (FULL-TIME)

A nonresident student may apply for full-time enrollment in the Medford Area Public School District (MAPSD) under the open enrollment program. Applications will be accepted and acted upon in accordance with procedures and timelines specified in state law.

The district shall consider the following criteria when accepting or rejecting a nonresident student's application for full-time enrollment:

Space Availability

MAPSD shall determine the maximum number of students who can be enrolled in a particular classroom without jeopardizing the quality of the instructional program.

MAPSD reserves the exclusive right to establish program size and to limit enrollment based upon the capability to properly allocate available resources, create and maintain waiting lists, create and maintain a proper learning environment, and comply with contracts, grants, and applicable laws and regulations.

### Student to Teacher Ratio

A student who is rejected under space availability criteria, but has siblings, who are accepted, may be considered for enrollment through special consideration under a student to teacher ratio criteria established by administration. In no case; however, will a student considered under this section be accepted if it negatively affects the quality of education provided to current students. Also, students who might otherwise be accepted under other criteria listed in this policy may be rejected based on student to teacher ratios.

### Sibling Preferences/ Guarantees

Preference must be given to any non-resident student currently attending MAPSD full time and to their siblings.

- Preference requires space.
- If there are no spaces, even students entitled to preference must be denied.

Guarantee may be given to currently attending students or their siblings.

- Guarantee means approval regardless of space.
- District must have policy to guarantee approval – otherwise may only grant preference.

### Enrollment Projections

Projected average class size shall be determined by administration based on prior in-grade growth for the preceding five years, including current open enrollment students, projected economic growth and projected birth data.

### Four-Year Old Kindergarten

A student may make application for attendance in a four-year-old kindergarten if the student's resident school district offers the same type of program and the student is eligible to attend the program in the resident district.

### Expelled Students

Students who have been expelled by a school district during the current school year or preceding two school years or who have disciplinary procedures pending as outlined in state law may not be accepted under the district's school open enrollment policy. If an expulsion or expellable behavior occurs after initial acceptance of the student and prior to the student starting school in MAPSD, the district may deny the enrollment of that student.

### Students with Disabilities

A non-resident student identified as a student with a disability will only be considered for enrollment if the special education program or related services described in the student's IEP are currently available within the district.

### Screening for Special Education Status

All applicant students will be screened to determine:

1. Whether or not the student has an identified disability and
  - is receiving services through an IEP, or
  - has received services and was dismissed through the IEP process, or
  - refused services, rejected placement or discontinued placement.

2. Whether or not the student is suspected of having a disability but has not been evaluated either by a school district or outside agency (clinic, hospital, university, etc.).

### Suspected Disabilities

Any student suspected of having a disability will not be considered for acceptance without completion of an IEP evaluation. A non-resident student, who has an identified disability and is not receiving services, will not be considered for acceptance without a valid IEP and placement consent.

#### Part II

### NONRESIDENT SCHOOL OPEN ENROLLMENT STUDENTS (PART-TIME/HIGH SCHOOL)

MAPSD may enroll non-resident students who are currently enrolled in a public high school on a part-time basis in accordance with state law.

A non-resident part-time student may attend no more than two courses at any one time in a non-resident district.

#### A. Application Requirements and Acceptance

Non-resident high school students interested in taking one or two courses in MAPSD shall apply at least six weeks prior to the date the course is scheduled to commence. Upon receipt of the application, the open enrollment coordinator shall forward a copy of the application to the student's resident district. The resident district must then determine if it accepts or rejects the application and must notify the MAPSD.

MAPSD open enrollment coordinator shall decide if the non-resident applicant is to be accepted. The open enrollment coordinator shall review the application to determine if the non-resident student has met all necessary pre-requisites, is at the appropriate grade level and any other established requirements for entry into the course(s). MAPSD Board of Education (BOE) policies and criteria for accepting and rejecting applications for students who reside in another school district shall follow the same policies and criteria for entry into the course that the BOE may give preference to residents of the school district.

#### B. Resident Preference

Using the usual enrollment maximums that would apply in scheduling resident students, the open enrollment coordinator shall determine if non-resident space is available. Preference shall be given to resident students. The open enrollment coordinator shall notify the student and their resident district of the acceptance or rejection at least one week prior to the date the course is scheduled to commence. If the non-resident student is rejected, the reason(s) for rejection shall be included in the notice.

#### Part III

### NON-RESIDENT STUDENT BUILDING ASSIGNMENT

Non-resident *elementary* students will be placed in the elementary school having the lowest projected classroom enrollment at the grade level applied for and in accordance with the following:

- An effort will be made to keep **non-residents** siblings of ~~non-residents~~ in the same school;
- If class sizes are relatively equal throughout the grade level, the student will be placed in the school closest to their residence, except if their residence is located East or West of

MAPSD the student will be placed according to the established boundary line policy in place at the time of the acceptance; and/or

- Placement will not be made according to the above criteria if it causes additional real cost to MAPSD. In that case, placement will be made in the school most advantageous to MAPSD.

Part IV  
TRANSPORTATION ARRANGEMENTS FOR NONRESIDENT SCHOOL OPEN ENROLLMENT STUDENTS

A non-resident school district is prohibited from picking up an open enrolled student within the boundaries of the student's resident school district, unless the resident district approves. MAPSD must also approve the pick-up/drop-off site. MAPSD is not required to provide transportation for non-resident students and will not change or establish routes for non-resident students, unless transportation is required in the student's IEP.

PART V  
RESIDENT SCHOOL OPEN ENROLLMENT STUDENTS

Full-time Enrollment

A student may not apply for open enrollment admittance to more than three nonresident districts in any school year. For purposes of determining whether applications have been submitted to more than three nonresident school boards, the district may not count an application submitted to a nonresident district for a student to attend a virtual charter school.

Resident Special Education Student

MAPSD will deny an applicant resident student to attend another school district if the cost of special education and related services as required in the student's IEP would place an undue financial burden on MAPSD.

If a resident student's IEP changes after the student begins attending a nonresident school district and the costs of the special education program or services required by the IEP would place an undue financial burden on MAPSD, MAPSD will discontinue allowing the student to attend school in the nonresident district.

Transportation Arrangements for Resident School Open Enrollment Students

MAPSD will not provide transportation to resident students participating in the full time open enrollment program in another school district.

Criteria Used to Reject Resident Student School Part-Time Open Enrollment Applications

Resident students will not be allowed to attend more than two courses at another school district at any one time. MAPSD will not approve the application of any resident student if the course considered for enrollment is in conflict with the student's IEP.

MAPSD will reject applications for part-time enrollment in another district if tuition for enrollment in the non-resident district will place an undue financial burden on MAPSD.

PART VI  
APPLICATIONS SUBMITTED UNDER ALTERNATIVE

- The student's attendance in a school in the nonresident school district is considered to be in the best interest of the student. The application must explain the reasons for requesting this exception and why attendance at the nonresident school district is in the best interest of the student.

PART VII  
ATTENDANCE OF OPEN ENROLLMENT STUDENTS

## Part II

### NONRESIDENT STUDENT OPEN ENROLLMENT APPLICATIONS-PART-TIME

#### Application Process:

- Applications are available at <https://dpi.wi.gov/oe> or from the resident/nonresident school district.
- The student's parent/ guardian is required to sign the application form. By signing the form, the parent grants permission for the nonresident school district to request and obtain from the resident school district (or district of attendance) records that are necessary to determine whether or not the student is in high school and whether the student meets the prerequisites for the courses.
- Apply with the nonresident school district (the district in which the student wishes to take the course).
- Apply no later than six (6) weeks before the scheduled start of the course.
- Application form must be received in the nonresident school district by that date – a postmark is not sufficient.
- Late applications will not be accepted.
- It is the responsibility of the parent/ student to find out the starting date for the course.

#### Approval / Denial Process (Nonresident District):

- No later than one (1) week before the start date of the course, the nonresident school district is required to notify the student if the application is approved or denied.
- The nonresident school district may deny a student's application only for the following reasons:
  - Space is not available in the course.
  - The student is not in the high school grades.
  - The student does not meet the nonresident school district's criteria for being admitted to the course.
  - The student is not enrolled in a public high school in Wisconsin.

#### Approval / Denial Process (Resident District):

- No later than one week before the start date of the course, the resident school district is required to notify the student:
  - If the application is denied (notification is not required for approval).
  - If the course does not meet the high school graduation requirements in the resident school district (although the student may attend the course even if it does not meet the high school graduation requirements).
- The resident school district may deny a student's application only for the following reasons:
  - The cost of the course creates an undue financial burden on the resident school district.
  - The course conflicts with the individualized educational program (IEP) for a student who needs special education.

#### Notification of the Student's Intent to Attend the Course:

- If the student has been notified that he / she is accepted into the course, the parent must notify both the nonresident and resident school districts whether or not the student will attend the course by the last weekday (excluding state holidays) before the course starts.

#### Appeals:

- If the application is rejected by either the resident or nonresident school district, the parent/guardian may appeal the decision to the Department of Public Instruction (DPI) within 30 days. DPI is required to uphold the BOE's decision, unless DPI finds that the decision was arbitrary or unreasonable. DPI's decision is final.

#### Transportation:

- The parent is responsible for transporting the student to and from the course in the nonresident school district.
- The parent may apply to DPI for a prorated reimbursement of the actual transportation costs. There is a maximum statewide appropriation for transportation reimbursement. Preference for reimbursement will be given to families that are eligible for free or reduced price lunches under the federal school lunch program.
- Claims for transportation reimbursement may be submitted to DPI at the end of the school year. The online claim form will be available starting June 1 on the open enrollment website at <https://dpi.wi.gov/oe>. Claims are due no later than July 15.

### Part III

#### NON-RESIDENT RANDOM SELECTION PROCESS

MAPSD shall determine, in advance of the January BOE meeting, the availability of spaces in each grade/program and the number of non-resident applicants. When space is available, first preference will be given to any students who are currently enrolled full time in the district and their siblings.

If MAPSD receives more nonresident student applications for full-time enrollment than there are spaces available, determination of which students to accept shall be made on a random basis as follows. At a BOE Policy Committee Meeting in May:

- All applications shall be assigned a number and the numbers placed in a container.
- The numbers shall be drawn and listed in the order they are drawn.

- Applications shall be accepted based on their order on the list and the number of spaces available in the district schools or programs.
- Those student applicants not selected in this random process will be placed on a numbered waiting list.
- As space becomes available, but prior to the third Thursday in September, the district shall randomly select the appropriate number of applicants from the waiting list using the procedures set forth in this section, Non-resident Random Selection Process, but only if the student will be in attendance in the nonresident school district on the third Friday in September. If a student is accepted from a waiting list after the start of the school term, it is the responsibility of the student's parent to immediately notify the resident school district of the student's intent to attend school in the nonresident school district in the current term.
- Parents/guardians of the student applicants will be notified of the applicant selection and will have ten (10) days in which to accept the open enrollment offer. Acceptance of the offer to attend must be in writing addressed to the Open Enrollment Coordinator, Medford Area Public Schools, 124 W. State Street, Medford, WI 54451 and be received or postmarked no later than 4:00 p.m. on the tenth (10<sup>th</sup>) day. All applicants must be enrolled in MAPSD prior to, and in accordance with, the third (3<sup>rd</sup>) Friday in September count date.

#### Part IV

#### RESIDENT STUDENT OPEN ENROLLMENT APPLICATIONS

##### Full-Time Enrollment

- Upon receipt of a resident student's application to attend a school or program in another public school district, school office staff shall forward it to the open enrollment coordinator for review and recommendation.
- All applications shall be reviewed using the criteria outlined in BOE policy. The open enrollment coordinator shall submit recommendations regarding acceptance or rejection of application to the BOE for action. If the application is rejected, the applicant and the nonresident BOE shall be notified, in writing, that the application has been rejected. This notification shall be made on or before the second Friday following the first Monday in June. The notice shall include the reason(s) for the rejection.

##### Appeal of Rejection

If an application for enrollment is rejected as outlined above, the student's parent(s)/guardian(s) may appeal the decision to the DPI within 30 days of the date the notice is postmarked or delivered to the parent.

#### Part V

#### APPLICATIONS SUBMITTED UNDER ALTERNATIVE OPEN ENROLLMENT PROCEDURES

##### Application Review and Approval Process

- When the district receives an open enrollment application that has been submitted under the alternative open enrollment criteria outlined above, whether it is submitted by a nonresident student or a resident student, the application shall be forwarded to the Open Enrollment Coordinator for review and recommendations.

- A. If the application involves a nonresident student seeking to attend school in the district under open enrollment, the district will:
- Immediately send a copy of any paper application received by the district to the student's resident school district, or, if applicable, the student's anticipated resident school district.
  - Work with the resident district (or the anticipated resident district) identified in the application to determine where the applicant is currently attending school and to determine from which school the district will receive any relevant special education records (i.e., the student's current IEP) and/or disciplinary records (i.e., expulsion records). If the applicant is not currently attending school in the resident district, the district will request such records from the school or school district the student is attending or most recently attended; and
  - Within ten (10) days after receiving, or, if necessary, developing an IEP for a student with a disability, provide an estimate to the resident district of the costs to provide the student with special education or related services.
- B. If the application involves a resident student who is attending, or who previously attended school in the district, the district shall send the nonresident school district to which the open enrollment application was made a copy, if applicable, of the student's IEP and any expulsion or other relevant discipline-related records within ten (10) days of receiving the application.
- The Open Enrollment Coordinator shall review the application using the acceptance/denial criteria outlined in BOE policy. The Open Enrollment Coordinator shall submit recommendation(s) regarding acceptance or denial of the application to administration for action.
    - A. The district may deny an application of a resident student if (1) it determines that the criteria relied on by the parent or guardian to submit the application do not apply to the student or (2) it determines that the cost of special education and related services required in the IEP for a student with a disability is an undue financial burden (except as to an applicant who the BOE determined was the victim of a violent crime).
    - B. The district may deny an application of a nonresident student:
      - for the same reasons it may deny an application submitted during the regular open enrollment application period; or
      - if the application relies on the best interests of the student criteria and the district determines that open enrollment is not in the student's best interest.
  - If the application involves a nonresident student seeking to attend school in the district, the district will notify the applicant, in writing, whether the application has been approved or denied no later than twenty (20) days after receiving the application.
    - A. If the application has been denied, the notification shall include the reasons for the denial. To the extent consistent with state law and district policy, acceptance of an application may be contingent or subject to revocation.

- B. If the district has approved the open enrollment application of a nonresident student, the notification provided to the applicant shall identify the specific school or program that the student may attend. A nonresident student accepted for enrollment may immediately begin attending the assigned school or program in the district and shall begin attending the school or program no later than the fifteenth (15<sup>th</sup>) day following receipt of the notice of acceptance. If the nonresident student has not enrolled in or attended school in the district by that date, the district may notify the student's parent or guardian, in writing, that the student is no longer authorized to attend the school or program in the district.
  - C. To the extent that there is a delay in the district's receipt of any relevant disciplinary records from another school or school district, the district will review and act upon such records promptly, and, if necessary, inform the student that final confirmation of the district's approval of the application is contingent upon the district's receipt and review of such records.
- If, for purposes of the application, the district is identified as the resident school district, the district shall notify the applicant whether the application has been approved or denied in accordance with any deadlines established by the state law or Department of Public Instruction rule. Normally, the district will issue such notifications no later than twenty (20) days after the district's receipt of the application. In addition:
    - A. If the application has been denied, the notification shall include the reasons for the denial. To the extent consistent with state law and district policy, approval of an application may be contingent or subject to revocation.
    - B. If the student is a student with a disability, the district shall normally make a determination whether the nonresident school district's estimate of relevant special education and services costs constitutes an undue financial burden on the district no later than twenty (20) days after the district has received the relevant estimate.

#### Part VI

#### ATTENDANCE OF OPEN ENROLLMENT STUDENTS

All students attending MAPSD under an open enrollment application will follow attendance/truancy policies of the district. Should a student be found to be truant, and the parents of a habitual truant be notified, that student may not be allowed to attend the nonresident school district in the following semester or school year per WI Act 304 and BOE policy JE.

This policy shall be administered in accordance with the state public school open enrollment law and Medford Area Public School District (MAPSD).

**NON-RESIDENT SCHOOL OPEN ENROLLMENT STUDENTS - (FULL-TIME)**

A nonresident student may apply for full-time enrollment to the Rural Virtual Academy (RVA) under the open enrollment program. The form shall require an applicant to indicate that ~~he or she~~ **they are** applying to attend a virtual charter school, the number of virtual charter schools to which ~~he or she~~ **they are** applying, and whether ~~he or she~~ **they are** a sibling of a student currently enrolled in a virtual charter school through the open enrollment program. Applications will be accepted and acted upon in accordance with procedures and timelines specified in state law.

RVA shall consider the following criteria when accepting or rejecting a nonresident student's application for full-time enrollment:

Space Availability

RVA shall determine, the maximum number of students who can be enrolled without jeopardizing the quality of the instructional program (following policy RVA-IIB regarding school and class size).

RVA reserves the exclusive right to establish program size and to limit enrollment based upon the capability to properly allocate available resources, create and maintain waiting lists, create and maintain a proper learning environment, and comply with contracts, grants, and applicable laws and regulations.

Student to Teacher Ratio

A student who is rejected under space availability criteria, but has siblings who are accepted, may be considered for enrollment through special consideration under a student to teacher ratio criteria established by administration. In no case; however, will a student considered under this section be accepted if it negatively affects the quality of the education provided to current students. Also, students who might otherwise be accepted under other criteria listed in this policy may be rejected based on student to teacher ratios.

### Sibling Preferences/ Guarantees

Preference must be given to any non-resident student currently attending RVA or MAPSD full time and to his/her **their** siblings.

- Preference requires space.
- If there are no spaces, even students entitled to preference must be denied.

Guarantee may be given to currently attending students or his/her **their** siblings.

- Guarantee means approval regardless of space.
- District must have policy to guarantee approval – otherwise may only grant preference.

### Expelled Students

Students who have been expelled by a school district during the current school year, preceding two school years, or who have disciplinary procedures pending as outlined in state law may not be accepted under the open enrollment policy. If an expulsion or expellable behavior occurs after initial acceptance of the student and prior to the student starting school in MAPSD RVA, the district may deny the enrollment of that student.

### Students with Disabilities

A non-resident student identified as a student with a disability will only be considered for enrollment if the special education program or related services described in the student's IEP are currently available within RVA.

### Screening for Special Education Status

All applicant students will be screened to determine:

1. Whether or not the student is a student with an identified disability and
  - is receiving services through an IEP, or
  - has received services and was dismissed through the IEP process, or
  - refused services, rejected placement or discontinued placement.
2. Whether or not the student is suspected of having a disability but has not been evaluated either by a school district or outside agency (clinic, hospital, university, etc.).

### Suspected Disabilities

Any student suspected of having a disability will not be considered for acceptance without completion of an IEP evaluation. A non-resident student, who has an identified disability and is not receiving services, will not be considered for acceptance without a valid IEP and placement consent.

### Age Eligibility

The nonresident school district is not required to evaluate the student and may deny the student's open enrollment based on the student not being old enough to attend school.

## NONRESIDENT SCHOOL OPEN ENROLLMENT STUDENTS – PART-TIME/ HIGH SCHOOL

MAPSD may enroll non-resident students who are currently enrolled in a public high school on a part-time basis in accordance with state law.

A non-resident part-time student may attend no more than two courses at any one time in a non-resident district.

### A. Application Requirements and Acceptance

Non-resident high school students interested in taking one or two courses in RVA shall apply at least six weeks prior to the date the course is scheduled to commence. Upon receipt of the application, the open enrollment coordinator shall forward a copy of the application to the student's resident district. The resident district must then determine if it accepts or rejects the application and must notify the MAPSD.

MAPSD open enrollment coordinator shall decide if the non-resident applicant is to be accepted. The open enrollment coordinator shall review the application to determine if the non-resident student has met all necessary pre-requisites, is at the appropriate grade level and any other established requirements for entry into the course(s). Board of Education (BOE) policies and criteria for accepting and rejecting applications for students who reside in another school district shall follow the same policies and criteria for entry into the course that the BOE may give preference to residents of the school district.

### B. Resident Preference

Using the usual enrollment maximums that would apply in scheduling resident students, the open enrollment coordinator shall determine if non-resident space is available. Preference shall be given to resident students. The open enrollment coordinator shall notify the student and his/her **their** resident district of the acceptance or rejection at least one week prior to the date the course is scheduled to commence. If the non-resident student is rejected, the reason(s) for rejection shall be included in the notice.

## APPLICATIONS SUBMITTED UNDER ALTERNATIVE OPEN ENROLLMENT CRITERIA

### Eligibility Criteria

- The student's attendance in a school in the nonresident school district is considered to be in the best interests of the student. The application must explain the reasons for requesting this exception and why attendance at the nonresident school district is in the best interests of the student.

- If the student has been notified that he / she is accepted into the course, the parent must notify both the nonresident and resident school districts whether or not the student will attend the course by the last weekday (excluding state holidays) before the course starts.

#### Appeals:

- If the application is rejected by either the resident or nonresident school district, the parent may appeal the decision to the Department of Public Instruction (DPI) within 30 days. DPI is required to uphold the BOE's decision, unless DPI finds that the decision was arbitrary or unreasonable. DPI's decision is final.

#### Transportation:

- The parent is responsible for transporting the student to and from the course in the nonresident school district.
- The parent may apply to DPI for a prorated reimbursement of the actual transportation costs. There is a maximum statewide appropriation for transportation reimbursement. Preference for reimbursement will be given to families that are eligible for free or reduced price lunches under the federal school lunch program.
- Claims for transportation reimbursement may be submitted to DPI at the end of the school year. The online claim form will be available starting June 1 on the open enrollment website at <https://dpi.wi.gov/oe>. Claims are due no later than July 15.

#### NON-RESIDENT RANDOM SELECTION PROCESS

MAPSD RVA shall determine, in advance of the January Board of Governance meeting, the availability of spaces in each grade/program and the number of non-resident applicants. When space is available, first preference will be given to any students who are currently enrolled full time in the district and his/her **their** siblings.

If the RVA receives more nonresident student applications for full time enrollment than there are spaces available, determination of which students to accept shall be made on a random basis as follows. At a BOE Policy Committee Meeting in May:

- All applications shall be assigned a number and the numbers placed in a container.
- The numbers shall be drawn and listed in the order they are drawn.
- Applications shall be accepted based on their order on the list and the number of spaces available in the district schools or programs.
- Those student applicants not selected in this random process will be placed on a numbered waiting list.
- As space becomes available, but prior to the third Thursday in September, the district shall randomly select the appropriate number of applicants from the waiting list using the procedures set forth in this section, Non-Resident Random Selection Process, but only if the student will be in attendance in the nonresident school district on the third Friday in September. If a student is accepted from a waiting list after the start of the school term, it is the responsibility of the student's parent to immediately notify the resident school district of the student's intent to attend school in the nonresident school district in the current term.
- Parents/guardians of the student applicants will be notified of the applicant selection and will have ten (10) days in which to accept the open enrollment offer. Acceptance of the offer to attend must be in writing addressed to the open enrollment coordinator, Medford Area Public School District, 124 West State Street, Medford, WI 54451 and be received or postmarked no later than 4:00 p.m. on the tenth (10<sup>th</sup>) day. All applicants must be enrolled in MAPSD prior to, and in accordance with, the third (3<sup>rd</sup>) Friday in September count date.

APPLICATIONS SUBMITTED UNDER  
ALTERNATIVE OPEN ENROLLMENT PROCEDURES

Application Review and Approval Process

- When the district receives an open enrollment application that has been submitted under the alternative open enrollment criteria outlined above, whether it is submitted by a nonresident student or a resident student, the application shall be forwarded to the open enrollment coordinator for review and recommendations.
  - A. If the application involves a nonresident student seeking to attend school in the district under open enrollment, the district will:
    - Immediately send a copy of any paper application received by the district to the student's resident school district, or, if applicable, the student's anticipated resident school district.
    - Work with the resident district (or the anticipated resident district) identified in the application to determine where the applicant is currently attending school and to determine from which school the district will receive any relevant special education records (i.e., the student's current IEP) and/or disciplinary records (i.e., expulsion records). If the applicant is not currently attending school in the resident district, the district will request such records from the school or school district the student is attending or most recently attended; and
    - Within ten (10) days after receiving, or, if necessary, developing an IEP for a student with a disability, provide an estimate to the resident district of the costs to provide the student with special education or related services.
  - B. If the application involves a resident student who is attending, or who previously attended school in the district, the district shall send the nonresident school district to which the open enrollment application was made a copy, if applicable, of the student's IEP and any expulsion or other relevant discipline-related records within ten (10) days of receiving the application.
- The open enrollment coordinator shall review the application using the acceptance/denial criteria outlined in BOE policy. The open enrollment coordinator shall submit recommendation(s) regarding acceptance or denial of the application to the administration for action.
  - A. The district may deny an application of a resident student if (1) it determines that the criteria relied on by the parent or guardian to submit the application do not apply to the student or (2) it determines that the cost of special education and related services required in the IEP for a student with a disability is an undue financial burden (except as to an applicant who the BOE determined was the victim of a violent crime).
  - B. The district may deny an application of a nonresident student:
    - for the same reasons it may deny an application submitted during the regular open enrollment application period; or
    - if the application relies on the best interests of the student criteria and the district determines that open enrollment is not in the student's best interest.

- If the application involves a nonresident student seeking to attend school in the district, the district will notify the applicant, in writing, whether the application has been approved or denied no later than twenty (20) days after receiving the application.
  - A. If the application has been denied, the notification shall include the reasons for the denial. To the extent consistent with state law and district policy, acceptance of an application may be contingent or subject to revocation.
  - B. If the district has approved the open enrollment application of a nonresident student, the notification provided to the applicant shall identify the specific school or program that the student may attend. A nonresident student accepted for enrollment may immediately begin attending the assigned school or program in the district and shall begin attending the school or program no later than the fifteenth (15<sup>th</sup>) day following receipt of the notice of acceptance. If the nonresident student has not enrolled in or attended school in the district by that date, the district may notify the student's parent or guardian, in writing, that the student is no longer authorized to attend the school or program in the district.
  - C. To the extent that there is a delay in the district's receipt of any relevant disciplinary records from another school or school district, the district will review and act upon such records promptly, and, if necessary, inform the student that final confirmation of the district's approval of the application is contingent upon the district's receipt and review of such records.
- If, for purposes of the application, the district is identified as the resident school district, the district shall notify the applicant whether the application has been approved or denied in accordance with any deadlines established by the state law or Department of Public Instruction rule. Normally, the district will issue such notifications no later than twenty (20) days after the district's receipt of the application. In addition:
  - A. If the application has been denied, the notification shall include the reasons for the denial. To the extent consistent with state law and district policy, approval of an application may be contingent or subject to revocation.
  - B. If the student is a student with a disability, the district shall normally make a determination whether the nonresident school district's estimate of relevant special education and services costs constitutes an undue financial burden on the district no later than twenty (20) days after the district has received the relevant estimate.

**DATE REVISED:**

School and class sizes for the Rural Virtual Academy (RVA) are to be determined by the RVA Governance Board. The RVA Governance Board recognizes that optimal educational achievement for students enrolled in a virtual school setting will be best served by considering the following criteria when determining both school and class sizes:

- Ages of the students being assigned to the class.
- Degree of independent learning expected or demonstrated by the assigned students.
- Number of at-risk or special needs students.
- Facility limitations.
- Available financial resources.

Using these considerations, the RVA Governance Board will establish class and school size guidelines including recommended maximum enrollments. The Governance Board recognizes that class sizes greater than the maximum may be approved.

It is the policy of the RVA Governance Board to recommend class sizes of 35 students in grades Pre-K through 12 direct instruction classes, 50 students in Pre-K through 12 independent classes and a total of 150 students (based on a 25:1 student teacher ratio) in special education. The total school size for the RVA is ~~1,800~~ 2,100 students.
