Ryan,

I am stepping down as assistant coach for middle school Cross Country. I hope this gives you sufficient time to find a replacement for the fall. It's been a fun six years.

I give so much credit to Angie for having an amazing program that was easy to step into. We complement one another quite well.

Thanks,
Nikki

Credit Profile		
US\$13.665 mil GO prom nts dtd 04/03/2025 due 04/01/2045		
Long Term Rating	AA-/Stable	New

Credit Highlights

- S&P Global Ratings assigned its 'AA-' rating to Medford Area Public School District, Wis.' \$13.665 million general obligation (GO) promissory notes.
- The outlook is stable.
- The rating reflects the application of our "Methodology For Rating U.S. Governments," published Sept. 9, 2024, on RatingsDirect.

Security

The promissory notes are secured by the district's unlimited ad valorem tax GO pledge. The notes are the first issuance of a total \$22.665 million in GO debt authorized by voters in November 2024 to finance various facility improvements, including upgrading classrooms, constructing an addition to the high school, and updating furnaces, roofs, bathrooms, and plumbing. The district plans to issue the remaining authorization in 2026.

Credit overview

The rating reflects the district's stable, well-managed finances and manageable debt profile. Limiting the rating are the district's income levels and gross county product (GCP) per capita, which are lower than those of similarly rated school districts.

Conservative budgeting, stable enrollment, and strong demand for the district's online charter school have supported consistently positive operating performance, stable reserves within the district's 15% to 25% fund balance policy, and a cumulative \$3.6 million in transfers out of the general fund in the last four years to the capital projects fund to save for future capital projects. Results have also benefitted from a state law that allowed districts with per-pupil revenues below \$11,000 to increase to \$11,000 in fiscal 2024. The district was previously at \$10,048 per pupil.

Management expects another operating surplus in fiscal 2025 and another transfer out to the capital projects fund. The state also increased the per-pupil revenue limit by \$325 in fiscal 2025. A rolling three-year enrollment average determines the amount of operating revenue Wisconsin school districts receive from state aid and property taxes. Management projects enrollment will modestly decline over the next few years due to larger graduating classes and lower birth rates, but expects state revenue from the district's growing online charter school as well as savings from retirements will offset this. Management reports the district is well situated with respect to filling staff vacancies, and

we expect labor costs will remain manageable and operating results will remain positive.

The district uses a line of credit for cash flow borrowing given the significant amount of revenue it receives from open enrollment payments, which are received at the end of the fiscal year. We view the line of credit's events of default as permissive and there is acceleration in the event of default. However, management reports it typically has about \$1.5 million drawn at a given time, and we note the district's monthly cash position over the last 12 months has been sufficient to meet this. Thus, we do not view the line of credit as a liquidity risk.

Credit fundamentals further supporting the 'AA-' rating include the following:

- The district's rural economy is in central Wisconsin, employment opportunities are mainly in manufacturing and health care. Management reports several new businesses opening as well as strong demand for housing that has led to development of two 64-unit apartment complexes and stronger tax base growth in recent years.
- The district's financial profile is stable, with no plans to spend down reserves.
- Management practices support financial stability, including monthly reporting to the board of budget-to-actual results and budget-plus-one year financial projections, an annually updated 10-year capital plan that shows estimated costs by year with funding to be provided by the capital projects fund, and regular monitoring by the board of the district's compliance with its 15%-to-25% fund balance policy. Management is taking measures to mitigate cyber risk.
- Debt is manageable, with current costs that could modestly increase to just over 8% of total governmental fund revenue and amortization over the next 10 years that will likely increase to around 30% once the remaining \$9 million in authorized debt is issued in 2026. The district's single-employer other postemployment benefits plan was 72% funded as of June 30, 2023.
- For more information on our institutional framework assessment for Wisconsin school districts, see "Institutional Framework Assessment: Wisconsin Local Governments," published Sept. 10, 2024.

Environmental, social, and governance

We view the district's environmental, social, and governance factors as neutral within our credit analysis.

Outlook

The stable outlook reflects our view that the district's sound management practices will continue to support financial stability.

Downside scenario

We could take a negative rating action if reserves materially weakened due to operational imbalance or other factors without a credible plan to restore them.

Upside scenario

We could take a positive rating action if the district's income and wealth levels and GCP per capita materially improved, while finances remain stable.

The Budget Parameters noted above, under the 2025-2026 budget, are based on the following:

1. 2025-26 Projected numbers as of January 2025.
2. All principals are to budget common school fund budgets:

Total Amount: \$120,000	<u>School</u>	<u>Amounts:</u>
	SES	\$11,737
	MAES	\$34,551
	MAMS	\$34,970
	MASH	\$38,742
		<u>\$120,000</u>

The common school fund amount allocated to each school is an estimate; however, principals should attempt to meet these amounts. A way to do this is by making sure all media, other than textbooks, is purchased out of the library budget. If any principal needs more than their allotted amount, they should contact other principals so we do not spend more than the common school fund total allocation.

E. Coding Information

WUFAR Sequence of Dimensions

WUFAR, being a multi-dimensional accounting system with independent dimensions, could be used in a variety of account code configurations as determined by the user. This would; however, create confusion regarding budgetary comparison. In order to ensure uniformity, the DPI requires the sequence of dimensions below to be utilized for dimensions that are employed on all transaction documents; i.e., requisitions, purchase orders, invoices, etc.:

Long Term Rating	AA-/Stable	New

Credit Highlights

- S&P Global Ratings assigned its 'AA-' rating to Medford Area Public School District, Wis.' \$13.665 million general obligation (GO) promissory notes.
- The outlook is stable.
- The rating reflects the application of our "Methodology For Rating U.S. Governments," published Sept. 9, 2024, on RatingsDirect.

Security

The promissory notes are secured by the district's unlimited ad valorem tax GO pledge. The notes are the first issuance of a total \$22.665 million in GO debt authorized by voters in November 2024 to finance various facility improvements, including upgrading classrooms, constructing an addition to the high school, and updating furnaces, roofs, bathrooms, and plumbing. The district plans to issue the remaining authorization in 2026.

Credit overview

The rating reflects the district's stable, well-managed finances and manageable debt profile. Limiting the rating are the district's income levels and gross county product (GCP) per capita, which are lower than those of similarly rated school districts.

Conservative budgeting, stable enrollment, and strong demand for the district's online charter school have supported consistently positive operating performance, stable reserves within the district's 15% to 25% fund balance policy, and a cumulative \$3.6 million in transfers out of the general fund in the last four years to the capital projects fund to save for future capital projects. Results have also benefitted from a state law that allowed districts with per-pupil revenues below \$11,000 to increase to \$11,000 in fiscal 2024. The district was previously at \$10,048 per pupil.

Management expects another operating surplus in fiscal 2025 and another transfer out to the capital projects fund. The state also increased the per-pupil revenue limit by \$325 in fiscal 2025. A rolling three-year enrollment average determines the amount of operating revenue Wisconsin school districts receive from state aid and property taxes. Management projects enrollment will modestly decline over the next few years due to larger graduating classes and lower birth rates, but expects state revenue from the district's growing online charter school as well as savings from retirements will offset this. Management reports the district is well situated with respect to filling staff vacancies, and

we expect labor costs will remain manageable and operating results will remain positive.

The district uses a line of credit for cash flow borrowing given the significant amount of revenue it receives from open enrollment payments, which are received at the end of the fiscal year. We view the line of credit's events of default as permissive and there is acceleration in the event of default. However, management reports it typically has about \$1.5 million drawn at a given time, and we note the district's monthly cash position over the last 12 months has been sufficient to meet this. Thus, we do not view the line of credit as a liquidity risk.

Credit fundamentals further supporting the 'AA-' rating include the following:

- The district's rural economy is in central Wisconsin, employment opportunities are mainly in manufacturing and health care. Management reports several new businesses opening as well as strong demand for housing that has led to development of two 64-unit apartment complexes and stronger tax base growth in recent years.
- The district's financial profile is stable, with no plans to spend down reserves.
- Management practices support financial stability, including monthly reporting to the board of budget-to-actual results and budget-plus-one year financial projections, an annually updated 10-year capital plan that shows estimated costs by year with funding to be provided by the capital projects fund, and regular monitoring by the board of the district's compliance with its 15%-to-25% fund balance policy. Management is taking measures to mitigate cyber risk.
- Debt is manageable, with current costs that could modestly increase to just over 8% of total governmental fund revenue and amortization over the next 10 years that will likely increase to around 30% once the remaining \$9 million in authorized debt is issued in 2026. The district's single-employer other postemployment benefits plan was 72% funded as of June 30, 2023.
- For more information on our institutional framework assessment for Wisconsin school districts, see "Institutional Framework Assessment: Wisconsin Local Governments," published Sept. 10, 2024.

Environmental, social, and governance

We view the district's environmental, social, and governance factors as neutral within our credit analysis.

Outlook

The stable outlook reflects our view that the district's sound management practices will continue to support financial stability.

Downside scenario

We could take a negative rating action if reserves materially weakened due to operational imbalance or other factors without a credible plan to restore them.

Upside scenario

We could take a positive rating action if the district's income and wealth levels and GCP per capita materially improved, while finances remain stable.

INVESTIGATION AND INTERVIEW

Investigation by Law Enforcement Upon Request of School Authorities

- A principal, or designee, may exercise their discretion in determining whether to request assistance of law enforcement in investigating a crime, or allegation of a crime, committed in their school building or MAPSD grounds during school hours.
- If the principal or their designee requests assistance, law enforcement may conduct an investigation within the school building and interview students as possible witnesses in school during the school day. The principal or their designee may be present during the interview unless the student requests they not be there.
- If the investigation focuses on a student as a suspect of a crime, the principal or their designee and the law enforcement officer will follow the general guidelines herein set forth with respect to interviews of suspects by law enforcement upon request of school authorities.

Investigation by Law Enforcement Without Request of School Authorities

- If law enforcement deems it necessary to interview students (possible witnesses and/or victims) at school, the Law Enforcement Department shall first contact the principal or their designee, regarding the planned visit and inform the principal or their designee of the probable cause to investigate within the school. The Law Enforcement Department may contact the district administrator or their designee in the case of the principal or their designee not being available.
- In other situations involving the interviewing of students by non-school personnel in relation to a child in need of protection or services, the principal or their designee shall comply with §48.981(3)(c) and relevant opinions from the State Attorney General and make every effort to cooperate with non-school personnel.
- If the investigation focuses on a student as a suspect of a crime, the principal or their designee and the law enforcement officer will follow the general guidelines herein set forth with respect to interviews of suspects by law enforcement without request of school authorities.

Interviews of Suspects by Law Enforcement Upon Request of School Authorities

- If a principal or their designee, has requested assistance by a Law Enforcement Department to investigate a crime involving their school building or students, law enforcement shall have permission to interview a student suspect in school during school hours. The principal or their designee shall make a good faith effort to notify the parent(s)/guardian(s) of the student of the intended interview. The principal or designee of the student's choice may be present unless the student requests they not be there.
- Before interview, the law enforcement officer shall advise the student of the nature of the crime of which he or she is suspected and inform them that they do not have to speak to officers if they do not desire to do so. The school officials or parent(s)/ guardian(s) cannot waive these rights on behalf of the student.

Interview of Suspects by Law Enforcement Without Request of School Authorities

- If law enforcement deems it necessary to interview suspects at school, law enforcement shall first contact the principal or their designee, regarding the planned interview, and inform the principal or their designee of the necessity to interview the student within the school. Under circumstances where the principal or their designee is not available, the notification of interview should be directed to the district administrator or their designee. Interviews should be arranged by methods that minimize disruptions. The principal or a school counselor of the student's choice may be present unless the student or their designee request they not be there.
- Before interviews, the law enforcement officer shall advise the student of the nature of the crime of which he or she is suspected and inform them that they do not have to speak to officers if they do not desire to do so. The school officials or parent(s)/ guardian(s) cannot waive these rights on behalf of the student.

Interviews of suspects by law enforcement upon or without request of school authorities, if criminal prosecution is contemplated by law enforcement, interview shall not commence unless an attempt is made to notify the parent(s)/guardian(s) of the student. In situations where the parent(s)/guardian(s) cannot be notified, it is the principal's or their designee's decision whether to proceed or not.

SEARCHES

School officials have an affirmative duty to investigate any suspicious conduct, materials dangerous or harmful to the health and welfare of students, school personnel or property present within the school. They shall cooperate with law enforcement personnel in any such investigation.

Who May Conduct a Student Search

- Principal or other administrator.
- School district employee designated by the principal or other administrator.
- Law enforcement or police liaison officer.
- Two people must be present. One must be the same sex as the student being searched.

Search of School Building or On School Property, By Law Enforcement, Upon Request of School Authorities

If a principal or their designee has a reasonable suspicion, that evidence of a crime, stolen goods, drugs, weapons or items of an illegal or prohibited nature, is located in a certain student's locker, desk, property or student's or non-student's automobile, the principal or their designee, may request law enforcement assistance. Law enforcement or a police liaison officer may participate in searches at the request of school officials provided such reasonable suspicion exists.

Search of School Buildings or On School Property, By Law Enforcement, Without Request of School Authorities

If law enforcement personnel seek permission from school authorities to search a student's property or locker to obtain evidence related to criminal activities, the school officials shall require law enforcement to obtain a valid search warrant unless: (1) there is uncoerced consent by the person whose interests are involved, (2) there is probable cause and circumstances are such that taking the time to obtain a warrant would frustrate the purpose of the search or, (3) a valid arrest has been made and the search is incident to the arrest. School officials shall make a good faith effort to notify the parent(s)/guardian(s) when a request is made to search a student or the student's property or locker.

Search by School Authorities

Unreasonable searches and seizures shall not be conducted by school officials. Staff should remain sensitive so as not to invade the privacy of students any more than necessary to achieve the legitimate end of preserving order in the schools. Rather than conduct a search, a school official or their designee has the right to contact a law enforcement official to take appropriate action.

Under no circumstance will a strip search be conducted by the school district at any time. A strip search as defined in Wisconsin statutes means "a search in which a person's private area is uncovered and either is exposed to view or is touched by a person conducting the search". If the nature of the problem is so serious or severe that this type of search is to be considered, law enforcement agencies will be contacted immediately.

Documentation

For all searches, the individual doing the search shall maintain a written record of all actions leading up to and including the search.

Search of Students

In the interest of the welfare of the students and school community, it may be necessary to search a student or the student's property. The search may be conducted if the school official or their designee has obtained voluntary and uncoerced student consent for the search or a reasonable suspicion that the student has obtained, or has in their possession, items in violation of school regulation, local ordinance or state law.

The manner in which the search is conducted must be reasonably related to the objective of the search and must not be overly intrusive in light of the age and sex of the student and the nature of the infraction.

No school official may conduct such search unless they suspect, from information or personal observation, that a student is in violation of school rule, local ordinance or state statutes.

In such cases the following procedure will be used.

- Inform the student of the reason for conducting the search.
- Request permission of the student to conduct the search.

Search Conducted with the Student's Consent

The school official or their designee who is conducting this search has the right to request a student to empty pockets, purses, backpacks, or other articles used to carry personal effects; to remove hats, shoes, and/or to roll socks down. The school official or their designee can also request a student to remove outer garments, such as sweatshirts, sweaters, jackets or vests if worn over blouses, shirts or t-shirts. No school official or school employee has the right to request the removal of any other clothing or to conduct a strip search.

If the student cooperates, the school official or their designee may notify the student's parent(s)/guardian(s) if they deem it appropriate.

Search Procedure if a Student Refuses to Cooperate

If a student refuses to cooperate, the school official or their designee has the authority to proceed, if reasonable grounds to suspect that the search will reveal evidence of school or legal violations.

A school official may contact the student's parent(s)/guardian(s) in order to request them to encourage the student to cooperate. If the parent(s)/guardian(s) have not been contacted and the law enforcement officials are involved, the school official or their designee will make a good faith effort to notify the parent(s)/guardian(s) as soon as possible as to the reason for such search.

Danger to Students or Other Individuals

If a school official or their designee has reason to suspect that a student is carrying a dangerous or illegal item or substance and if a school official or their designee believes that an immediate search is necessary, he or she may search a student's pockets or belongings and conduct a pat-down search. The student may be detained until such time as a law enforcement official arrives.

Automobile Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property. The interiors of student vehicles may be inspected whenever the student has given consent to search a vehicle or a school authority has reasonable suspicion to believe that illegal or unauthorized materials are contained inside. Such patrols and exterior inspections may be conducted without notice, without student consent and without a search warrant.

Seizure of Illegal Materials

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

ARREST BY LAW ENFORCEMENT

- No law enforcement officer shall arrest or take custody of any student in school during school hours unless:
 - Upon lawful request by the principal or their designee.
 - The officer makes an arrest for a felony or misdemeanor.
 - Has an arrest warrant or juvenile commitment order, which the issuing authority of juvenile court directs be served at school.
- In cases where the student is to be taken into custody, the law enforcement officer shall first contact the principal and advise them of such fact. When appropriate, the student shall first be summoned to the office by the principal.
- In emergency situations where the commission of a serious felony or misdemeanor has been witnessed by a law enforcement officer or if the law enforcement officer is in pursuit of a student for such crime, law enforcement shall have the legal right to apprehend such student. However, before removing such individual from the school grounds, the law enforcement officer shall inform the principal or their designee of such apprehension.
- The principal or their designee shall record the name of the law enforcement officer, time of the arrest, name of the issuing authority of any arrest warrant, nature of the crime for which apprehension is made and place of custody or detention. The parent(s)/ guardian(s) of the student shall be notified as soon as possible by the principal or their designee.

MEDFORD AREA PUBLIC SCHOOL DISTRICT

DATE ADOPTED: April 16, 2009 **FILE SECTOR:** RURAL VIRTUAL ACADEMY
DATE REVISED: August 18, 2016 **POLICY TITLE:** VIRTUAL SCHOOL
DATE REVISED: June 27, 2022 **ATTENDANCE/PARTICIPATION**
DATE REVISED:

Each student enrolled in the Rural Virtual Academy (RVA) will be required to be in full attendance and communication. Communication is the key to the success of student achievement in the RVA. Attendance requirements vary depending upon the type of instructional model each child is participating in ranging from individualized to whole class instruction. Regardless of instructional model, frequent and reciprocal communications in the form of one-on-one, on or offsite tutoring, telephone conversations, two-way email correspondence or interactive online correspondence, participation in scheduled meetings and classes, adequate academic progress and pace in asynchronous courses, or other forms of required attendance and participation with assigned RVA staff constitutes full attendance. It is the responsibility of the RVA parent to request and report student absences to the appropriate school personnel. RVA students may be required to report to an RVA office for occasional mandatory testing, educational or technical support unless the absence is excused by RVA administration or designee.

Students who are determined to be not in attendance may be considered truant and failing to participate with the expectations of the RVA under § 118.40 (8)(g)). Prior absences for which written verification was not made to RVA administration or designee of a legal excuse may be counted as truant absences from school and a failure to participate with the expectations of the RVA. Truant school days refer to any absence of part or all of one or more days from school during which the RVA administration or designee has not been notified by the parent(s)/guardian(s) of the legal cause of such absence of the student. Parental or guardian failure to notify the school of such absences is a failure to meet the expectations of the RVA.

As determined by § 118.40 (8)(g) a student's failure to fully participate will result in the student being removed from the virtual school through the following process:

- Whenever a student attending a virtual charter school fails to respond appropriately to a school assignment or directive from instructional staff within 5 five school days, the governing body of the virtual charter school shall notify the student's parent(s)/guardian(s).
- The third time in the same semester that a student attending a virtual charter school fails to respond appropriately to a school assignment or directive from instructional staff within 5 school days, the governing body of the virtual charter school shall notify the student's parent(s)/guardian(s), Medford Area Public School District (MAPSD), the school board of the student's resident school district and the department.
- The school board that contracted with MAPSD Board of Education (BOE) may transfer the student to their resident school district.

- If the student is a resident of MAPSD, the BOE may assign the student to another school or program within the school district.
- If the school board transfers or assigns a student, it shall notify the student's parent(s)/guardian(s) and the department.
- If the parent or guardian of a pupil attending the RVA notifies the RVA in writing before a school assignment or directive is given that the pupil will not be available to respond to the assignment or directive during a specified period, the school days during that period are excused absences and do not count for purposes determining truancy or a failure to participate.
- The RVA shall require the pupil to complete any assignment missed during the period of an excused absence. This applies to no more than 10 school days in a school year.
- The parent(s)/guardian(s) of a student transferred to the student's resident school district may appeal the transfer to the department within 30 days after receipt of the notice to transfer.
- The department shall affirm the school board's decision unless the department finds that the decision was arbitrary or unreasonable.

Truancy and failing to participate with the expectations of the RVA under §118.40 (8)(g) also includes intermittent attendance carried on for the purpose of defeating the intent of the state attendance statutes. The responsibility for regular school attendance of a student rests upon the child's parent(s)/guardian(s).

In support of this responsibility, the RVA will extend all possible and appropriate modifications to assist in the successful participation in school for every student. It is the responsibility of the RVA to document contact time and maintain accurate attendance data. RVA administration and Governance Board reserve the right to determine effective attendance rates and participation in the program. The RVA administration and Governance Board also reserve the right to enforce local attendance policies and dispositions up to and including dismissal of students from the RVA.

To Mrs. Lybert, Mrs. Lundy, and the Medford School Board:

Please accept this letter to inform you I am retiring at the end of this 2024-25 school year.

In many ways it feels like yesterday that I began my employment. I can honestly say I have looked forward to each and every day. I definitely picked the perfect career field for myself, and have my husband to thank for bringing me to Medford. Ultimately, I gained employment in this fantastic school district.

I look back fondly as to how my job has evolved over the years, to assist in the creation of classes such as Life Management(Career Ed) and our paid School to Work. In this capacity, it has been my privilege to meet each and every student and assist them in my content field and with their potential careers. I have also been determined to link my classroom/learning to local businesses and agencies with our city. I have felt it important to invite speakers or to extend my classes with short field trips beyond the walls of our school building to the wealth of our diversified community. I believe my students have greatly benefited. I have also learned so much and gained many friendships.

If I can be of any assistance in my replacement or transition of my position, I am eager to help. If I can continue to serve our district in some manner in the future, never hesitate to ask.

AND....as most people who know me, if you are looking for me, I will probably be in the swimming pool.

With great gratitude,

Barb Gelhaus

It has been an honor to be a part of the Medford School District family.
