66.0301 Affiliated Member Agreement: Shared Virtual Learning Services Between Rural Virtual Academy (RVA) and Manawa School District 2025 - 2026

Pursuant to Wisconsin Statutes 66.0301, 120.25 and Department of Public Instruction Chapter PI-14.02, the Rural Virtual Academy (RVA), a virtual charter school operating under the authorization and fiscal agency of the Medford Area Public School District, the RVA Governance Board representing the charter school and consortium members, and Manawa School District agree to form a consortium to provide year round virtual learning services to Pre-Kindergarten through Grade 12 students residing in the Manawa School District for the term of one school year.

Program Description [PI-14.02(b)]:

Upon approval of this agreement, the Rural Virtual Academy will be allowed to enroll pupils from families seeking virtual learning educational options from the Manawa School District and provide them instructional services in accordance with this contract and RVA's operating policies and procedures.

The RVA will provide the District's designated contact with copies of each student enrollee's academic achievement reports and assessment data.

Students acquiring enough credits for graduation will be granted a diploma from the Manawa School District meeting all necessary graduation requirements of the Manawa School District. The Manawa School District agrees that any additional local graduation requirements not provided by the RVA educational programming will be communicated to the students by Manawa School District personnel in a timely manner as to not delay the graduation of a student on track to meet all graduation requirements.

The Manawa School District retains determination and all associated special education and/or related services should they be needed for RVA students. The RVA will not over-cost for special education services as they will remain under the direct control of the Manawa School District. If an IEP team is created for student of Manawa School District attending the RVA, then the RVA requests to have a teacher represented on such team.

The Manawa School District agrees to provide to its RVA parents the option of receiving

in-district intervention programming and progress monitoring services to children who are referred for a specific learning disability.

The Manawa School District agrees to coordinate, schedule, and proctor all required State assessments.

The Manawa School District agrees to allow its resident RVA students access to regular school programming including but not limited to: academic classes, elective courses, activities, clubs, extra- curriculars, co-curriculars, athletics, etc.

The RVA will provide access to digital learning curriculum and ongoing professional development for digital learning use in classrooms with the Manawa School District.

Fiscal Agent [PI-14.02(c)1,2,3 (e)]:

The RVA, under the authorization and fiscal oversight of the Medford Area Public School District (MAPSD), will be the fiscal agent. RVA instructors will operate in accordance of Wisconsin statute and follow the RVA's operational policies, salary schedule, take part in staff development, and be supervised by RVA administration. The RVA will account for all employment responsibilities (teacher retirement, worker's compensation, and unemployment insurance).

As fiscal agent, the RVA will establish and maintain records in accordance with the uniform accounting system prescribed by the Department of Public Instruction under §115.28(13); file all required financial reports with the Department of Public Instruction; and, upon request of the Department, file a copy of the contract and the plan of operation with the Department.

Budget Reconciliation [PI-14.02(d)(7)(h)]:

Virtual School Access Fee

The Manawa School District will be assessed an annual "Virtual School Access Fee" based upon the number of different students enrolled in the RVA over the course of the year. This amount of this fee is not prorated by the number of days of enrollment. This amount is fixed and billed at the end of year reconciliation. Fees are based upon the following table:

RVA Affiliated Virtual School Access Fee	
Based on Full-time Students Enrolled	
0	\$0
1-4	\$3,000
5-9	\$4,500
10-14	\$6,000
15-19	\$7,500
20-24	\$9,000
25-29	\$10,500
30-34	\$12,000
35-39	\$13,500
40+	\$15,000

The Manawa School District will be assessed at an agreed per pupil amount (tuition). For state aid purposes, pupil membership will be counted by the Manawa School District. The tuition amount will be prorated to the number of days of enrollment by each participating student. Tuition is determined to be the annual public school open enrollment dollar amount determined by the Department of Public Instruction on an annual basis **less \$2,500 per pupil**. Different open enrollment dollar amounts exist for both regular and special education students. This amount is variable and billed at the end of year reconciliation.

The Manawa School District will be assessed a full **credit of \$5,000 per teacher** per section for shared instructional staff instructing RVA daily live instruction classes. (See table below.) Shared consortium staff will not be considered for sections having fewer than five students. The RVA Administration makes determinations of class and section needs and reserves the right to deny requests for shared course sections. Needs for shared course sections are made on an annual basis by RVA Administration with no guarantee of continued availability from year-to-year. Preference will be given to those districts who have previously shared staff. Poor evaluations or performance of shared staff in their instructional duties as evaluated by RVA Administration can result in the course section not being offered in future years.

Full and prorated credits will be based upon the following table:

RVA Affiliated Shared Instructional Staff Credit		
Based on Per Teacher Per RVA Students Enrolled		
Teacher	RVA Students	Credit
1	0-4	No Section
1	5-35	\$5,000

Member districts and other educational institutions may annually elect to apply for the "RVA Engagement Credit." This financial credit is awarded to consortium school districts who apply and demonstrate success based on their engagement with the RVA. This financial credit is intended to further incentivize and deepen this engagement between the RVA and the consortium school district. By meeting and exceeding the basic expectations of our shared partnership, RVA consortium districts can earn financial credits to reduce their year-end RVA costs. Engagement refers to variety of usage, participation, and cooperation with RVA's services, timelines, and expectations. The financial credit amount varies annually. If the RVA receives more fully successful applicants than it has money, annual credits will be prorated.

District Connect

The Manawa School District will be assessed an annual "District Connect Fee" based upon the number of student course enrollments provided by the RVA over the course of the year. This amount is fixed and billed at the end of year reconciliation. Fees are based upon the following table:

RVA Affiliate District Connect Fee Based on Total # of Student Registrations	
< 5	\$1,500
5-24	\$2,500
25-74	\$3,500
75-109	\$4,500
110-174	\$5,500
175-399	\$6,500
400-799	\$7,500
800+	\$8,500

The Manawa School District will be provided access to all the courses available through the Wisconsin eSchool Network (Wisconsin Digital Learning Collaborative) and other curricular contracts held by the RVA. Professional development and ongoing technical support and training will be provided to the Manawa School District staff by the RVA.

The Manawa School District will be charged all associated costs for content of digital courses in the same amount the RVA is charged for acquiring those courses from the Wisconsin eSchool Network and other curriculum vendors under contract with the RVA. This amount is fixed at the rate per courses which are "licensed," "owned," or "digital access" by the Wisconsin eSchool Network, or other curriculum vendors under contract with the RVA, and billed at the end of year reconciliation.

The Manawa School District will be charged a per course/ student/ semester "instructional fee" for any classes taken by Manawa School District students, in RVA teacher directed courses. This cost is variable depending upon type of instructional support needed. This amount is fixed and billed at the end of year reconciliation and is in addition to the cost for course content.

The RVA will prepare a preliminary budget for the virtual learning services with actual and final reconciliation prior to June 30, 2027. In this way, the proration of costs will be made on a basis which is fair and equitable to each participant.

Program Contacts: Charles Heckel, RVA Administrator, Medford Area Public School District, will be the responsible contact person. The designated contact for the Manawa School District will be Ryan Peterson.

Agreement & Approval Renewal [PI-14.02(i)]:

This agreement will be reviewed and may be renewed annually.

TEAM EDUCATION/TRAINING/IN-SERVICES/MEETINGS/UPDATES

The monthly cooks meeting was completed. Monthly safety training was completed which covered proper cleaning of bio hazardous materials.

New produce opportunity coming soon, BIX PRODUCE CO., based out of Minnesota is coming in May to do a demo of the products they offer. Although it's not as locally grown as some of our vendors, this gives us availability of fresh produce even in the winter. Especially excited to see what Bix can offer for our FFVP (Fresh Fruit Vegetable Program).

Food for thought was held at the Elementary school. This years theme was grains: oats, brown rice, quinoa, sorghum. Oats won out with the Granola bites recipe. The other recipes were quinoa egg bake, brown rice frushi, sorghum pineapple pudding.

Also provided a catering for the Legislative meal. Cold and hot sandwiches, two types of soup along with a dessert table.

National Breakfast week was also celebrated in April.

It is our pleasure to serve the students at your School District!

Other Post-Employment Benefits (OPEB)

Key Definitions

The actuarial present value of the OPEB liabilities is the value of all benefits estimated to be payable to plan members discounted at the assumed interest rate back to the valuation date. The actuarial present value is comprised of:

- Benefits employees have already earned, and
- Benefits expected to be earned by employees in the future.

Presented in this report are the results of our study of the post-employment benefits and the associated liabilities and costs. The study includes the following:

Total OPEB Liability (TOL): The portion of the actuarial present value of projected benefit payments attributed to past periods of employee service also known as the accrued benefit.

Service Cost: The portion of the actuarial present value of benefits allocated to the valuation year.

Fiduciary Net Position (FNP): The market value of assets held in an irrevocable trust exclusively for payment of post-employment benefits.

Net OPEB Liability (NOL): The difference between the Total OPEB Liability and Fiduciary Net Position. This amount may also be negative indicating a surplus of FNP over TOL.

OPEB Expense: The expected cost of OPEB benefits attributed to the measurement period.

Actuarially Determined Contribution (ADC): The ADC represents a targeted or recommended contribution to funding the benefit over time comprised of the service cost plus the portion of the Net OPEB Liability to be amortized in the valuation year.

Plan Summary

For the Medford Area Public School District (the "District"), the other post-employment benefit liability consists of several interdependent pieces arising from the rules of the plan. The amounts paid by the District for continued health care for all classifications that are entitled to a benefit are briefly outlined below. A full description of the eligibilities and benefits for eligible classifications can be found in the OPEB Technical Appendix.

- A. Teachers: Hired prior to July 1, 2020, and at least age 55 with a minimum of 15 years of service:

The District shall provide eligible retirees with a credit amount that is to be used towards payment of health premiums until their exhaustion or the retiree becomes eligible for group health insurance with a future employer, whichever occurs first. The credit amount is determined by years of service in the District ranging from \$39,160 for those with 15 years of service to

\$48,160 for those with 30 years of service (plus an additional \$1,000 per year thereafter).

The credit can be used towards the District's health plan or a plan outside the District. Upon exhaustion of the credit, the retiree may remain on the District's group health plan indefinitely.

Note: Teachers hired on or after July 1, 2020, will receive a benefit that is to be funded during active service instead of the post-employment benefits illustrated above.

- B. Administration: At least age 55 with a minimum of 12 years of administrative service in the District or no less than a total of 25 years of teaching and administrative experience in the District:

- **Hired Prior to July 1, 2004:** The District will contribute 89% of the health premiums on behalf of the retiree for a period of 8 years.
- **Hired Between July 1, 2004, & July 1, 2005:** Eligible retirees will receive a credit amount equal to their last annual salary prior to retirement. This credit is to be used for payment of health premiums until their exhaustion. Upon exhaustion of the credit, the retiree may remain on the District's group health plan indefinitely.

Note: Administration hired on or after July 1, 2005, will receive a benefit that is to be funded during active service instead of the post-employment benefits illustrated above.

- C. Support Staff: Hired prior to July 1, 2020, and at least age 55:

The District shall provide eligible retirees with a credit amount that is to be used towards payment of health premiums until their exhaustion. The credit amount is determined by years of service in the District ranging from \$17,000 for those with 15 years of service to \$21,000 for those with 30 years of service (plus an additional \$600 per year thereafter).

The credit can be used towards the District's health plan or a plan outside the District. Upon exhaustion of the credit, the retiree may remain on the District's group health plan indefinitely.

Note: Support Staff hired on or after July 1, 2020, will receive a benefit that is to be funded during active service instead of the post-employment benefits illustrated above.

Notes:

- The entire health credit is paid as a lump sum upon the employee's retirement and transferred from the District's Irrevocable Trust (Fund 73) to Mid-America's HRA trust. This valuation reflects the post-employment obligations of active employees yet to receive their health credit and incorporates only the trust assets in the District's Fund 73 (not including those assets held in Mid-America's HRA trust).
- Effective 7/1/2026, retirees will only be able to self-pay to remain on the District's group health plan for the duration of COBRA.

Implicit Rate Subsidy

Implicit rate subsidy, or “IRS” for short, is the difference between individuals’ actual incurred costs for health coverage (i.e., incurred medical and Rx claims paid by the insurer, in the case of a fully-insured health plan) and the individuals’ total premiums charged for such coverage. In essence, premium rates are determined for a group health plan based on the total expected health care costs of all participants covered in the group. While each participant is then charged the same premium rate, not every participant will experience the same level of actual health care costs. Since some participants will have higher health care costs than others while paying the same premium rate, some of their health care costs are being “subsidized” by the premiums paid by others with lower health care costs. It is expected that older plan participants, such as retirees, will be the participants with higher health care costs.

For OPEB valuations, the GASB guidelines require that the determined liabilities be based on the total value of the post-employment benefits, which includes implicit rate subsidy for former employees remaining on the District’s group health plan(s). Note that the implicit rate subsidy is only calculated when former employees are enrolled in the District’s health plan(s). Per guidance provided by Actuarial Standard of Practice No. 6, the implicit rate subsidy resulting from retirees participating in the District’s dental plan would typically be considered immaterial.

Furthermore, when an individual becomes Medicare-eligible and Medicare is the primary payer, premium rates of the District’s group Medicare coverage (e.g., supplemental Medicare coverage or a Medicare Advantage plan), if offered, are usually adjusted such that these adjusted rates represent the expected cost of coverage. Thus, the resulting implicit rate subsidy would be considered immaterial and would not be calculated. However, in some cases, the expected cost of coverage for this group of retirees may materially exceed the adjusted rates, in which case implicit rate subsidy would be determined. Another exception where implicit rate subsidy may not be applied would be if the District’s retirees are pooled and rated separately from the District’s active employees. In this situation, the premium rates charged to retirees should reflect the expected claims costs on behalf of only the retirees and as a result, there would be no implicit rate subsidy to value.

Other District-Provided Post-Employment Benefits

Supplemental Pension Benefits

Certain active employees are eligible for a stipend (cash or cash-equivalent) benefit upon retirement. GASB has identified such post-employment benefits as a pension benefit rather than an OPEB. The District's auditor previously determined that the liabilities related to the District's supplemental pension benefits was immaterial, therefore, no valuation of stipend benefits was performed or provided in a separate report.

Actively-Funded Benefit

For eligible Administrators hired on or after July 1, 2005, the District provides a non-elective 403(b) contribution of \$3,000 following each completed school year of service in the District. In addition, the District will match 100% up to the first \$3,000 contributed each year into a 403(b) account.

The District also provides eligible Teachers and Support Staff hired on or after July 1, 2020, with an annual HRA contribution during active years of service in the amount of \$750 and \$375, respectively, beginning with the 2020/21 fiscal year.

These benefits are funded into an irrevocable account designated for the identified employees each year in the year earned. Thus, such benefits are considered to be accounted for as actively-funded benefits and were not included in this post-employment valuation.

Sick Leave Benefit

Unused sick leave accumulated upon the retirement, up to a maximum of 108 days for Teachers and 96 days for Support Staff, will be converted at the rate of \$75 per day. These monies are to be added to the retirees' health credit and can be used towards the District's health plan or a plan outside the District.

According to GASB guidelines, only the implicit rate subsidy incurred from use of the converted sick leave monies towards continued health coverage is considered and should be accounted for as an OPEB. The sick days themselves, whether paid out in cash or applied towards continued health coverage are considered termination payments and should be accounted for as a compensated absence under GASB Statement 101.

The implicit rate subsidy incurred on behalf of those assumed to use their accumulated sick leave dollars toward continued coverage on the District's group health plan, as described in the Key Actuarial Methods and Assumptions section below, was calculated and included in this valuation.

Actuarially Determined Contribution (ADC)

While OPEB benefits are not currently required to be funded, an ADC is provided within this report since the District utilizes an irrevocable trust to fund their benefits. The ADC represents a targeted or recommended contribution for funding the benefit over a specific period of time.

Since this valuation is based upon a measurement period 12 months prior to the reporting period, the ADC shown in Table VII was determined in the prior valuation using a 3-year amortization period and the level dollar amortization method.

An amortization schedule is provided based upon the District's Net OPEB Liability measured as of June 30, 2024, so that the District is able to direct the amortization period and method to use in future reporting periods ending June 30, 2025, and June 30, 2026.

The following are two amortization methods available for selection by the District which are presented in the ADC Options schedule provided:

Level Dollar Amortization Method – The amount to be amortized is divided into equal dollar amounts to be paid over a given number of years; part of each payment is interest and part is principal (similar to a mortgage payment on a building). Since payroll can be expected to increase as a result of inflation, level dollar payments generally represent a decreasing percentage of the payroll over time.

Level Percent Amortization Method – Amortization payments are calculated so that they increase at a constant percentage over a given number of years. The dollar amount of the payments generally will increase over time due to inflation; however, the percentage increases in these payments can be expected to remain level.

Summary of Valuation Results

District OPEB Liability

Based upon actuarial assumptions and projections described herein, as well as the census and benefit data provided by the District, the Total OPEB Liability, Fiduciary Net Position and Net OPEB Liability measured as of June 30, 2024, are as follows:

Total OPEB Liability (TOL)	\$ 2,945,616
Fiduciary Net Position (FNP)	\$ 2,670,636
Net OPEB Liability (NOL)	\$ 274,980

Detailed calculations for the above results can be found in the OPEB Tables.

GASB 75 includes certain Required Supplementary Information (RSI) disclosure requirements including a 10-year schedule presenting, in part, a history of the District's Total OPEB Liability, the plan's Fiduciary Net Position and Net OPEB Liability (see OPEB Table IV in the table section of the report). The chart below visually summarizes the comparison of the District's Total OPEB Liability and Fiduciary Net Position since implementation of these new guidelines:

History of Total OPEB Liability (TOL) & Fiduciary Net Position (FNP)

Note: For additional details, see OPEB Table IV

The charts below show a breakdown of the District's Total OPEB Liability between actives and retirees measured as of June 30, 2024, in addition to a comparison of the current eligibility status of all active plan participants as of the valuation date:

Deferred Inflow and Outflow of Resources

The Plan's benefit terms have not changed since the prior valuation, therefore no change in benefit terms was calculated.

Differences between expected and actual experience resulted in a decrease in the Total OPEB Liability. Changes of assumptions or other inputs also resulted in a decrease in the Total OPEB Liability. These changes included an updated assumed discount rate and assumed health care trend. The increase in deferred inflow of resources from these two sources is to be recognized over the average of the expected remaining service lives of active and inactive plan members. The Plan has an average expected remaining service life of 13 years.

The net difference between projected and actual earnings on OPEB plan investments resulted in an actuarial gain due to earnings being greater than expected. This gain is to be recognized as an inflow of resources over a 5-year period.

District contributions subsequent to the measurement date will be recognized as a deferred outflow of resources and a reduction in the Net OPEB Liability in the year ended June 30, 2025, to be reported for the fiscal year end June 30, 2026. Other amounts reported as deferred inflows and outflows will be recognized in the OPEB expense according to Table V.

Note that OPEB Table V, which reflects all deferred inflows and outflows of resources, contains a "TBD" line item related to District contributions subsequent to the measurement date. As noted above, such contributions will be recognized as a deferred outflow of resources since the District is reporting their obligations through June 30, 2024, on their June 30, 2025, audited financial statements. This figure is based upon the actual amount contributed to the District's Trust for the 2024/25 fiscal year since the District funds its OPEB benefits via an irrevocable Trust.

Key Actuarial Methods and Assumptions

The valuation was based upon the data provided by the District. In performing this study, we utilized the premium rate history of the District's health plan as well as the trends used in the prior valuation and projected a stream of expected premium rates for each year in the future based on the data as of June 30, 2024.

The assumed initial annual health care trend rates are based in part on the 2024 Segal Health Plan Cost Trend Survey. Rates are trended down in subsequent years in accordance with prevalent actuarial practice, based in part on the Society of Actuaries - Getzen Long Term Health Care Trends Resource Model, as updated November 2021.

GASB guidelines require that actuarial valuations of OPEB benefits use the entry-age normal actuarial method. Therefore, this valuation was performed using the entry-age normal actuarial method.

The valuation date and measurement date are June 30, 2024. This valuation is eligible for reporting periods ending June 30, 2025, and June 30, 2026, though the accompanying exhibits are only valid for the reporting period ending June 30, 2025.

Actuarial assumptions are based upon an experience study conducted in 2021 using Wisconsin Retirement System (WRS) experience from 2018-2020.

Of eligible Administrators hired between July 1, 2004, and July 1, 2005, and Teachers hired prior to July 1, 2020, who are currently electing coverage on the District's group health plan, 60% were assumed to use their medical credit to remain on the District's plan. Further, one half of these individuals (i.e., 30%) were assumed to remain on the District's plan upon exhaustion of their credit by self-paying the full amount (100%) of the premium until Medicare eligibility, if retiring prior to July 1, 2026. Similarly, for eligible Support Staff hired prior to July 1, 2020, who are currently electing coverage, 30% were assumed to use their credit to remain on the District's plan and one half of these individuals (i.e., 15%) were assumed to remain on the plan until Medicare eligibility upon exhaustion of their credit, if retiring prior to July 1, 2026.

Additionally, 20% of Administrators hired after July 1, 2005, and Teachers and Support Staff hired after July 1, 2020, currently electing coverage were assumed to continue to participate in the District's group medical plan in retirement for 18 months at the Single coverage level.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rates. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the Total OPEB Liability.

A discount rate of 5.58% was used in calculating the District's OPEB liabilities (based upon all projected payments discounted at a long-term rate of return of 5.58%). This rate was based upon the District's asset allocation and expected nominal returns as of June 30, 2024. Implicit in this rate is a 2.50% assumed rate of inflation.

Included at the end of the report is the OPEB Technical Appendix, which discloses a full description of the assumptions noted above as well as all other assumptions used in this valuation.

Pay-As-You-Go (Table IX)

GASB requires all public entities to identify and include their post-employment liability in their financial statements. However, at this time GASB does not require any public entity to fund this liability. Since many districts currently provide post-employment benefits on a pay-as-you-go basis, we have included OPEB Table IX. This table illustrates, based upon the assumptions used in this valuation, the District's annual liability for retiree OPEB benefits on a pay-as-you-go basis.

The projections illustrated in OPEB Table IX are for illustrative purposes and pertain only to the liabilities incurred from those eligible active and retired employees of the District as of June 30, 2024. In other words, it is based upon a closed valuation, such that no new hires are assumed to replace those future retirees expected to receive benefits as noted. The valuation is based upon numerous assumptions as detailed in the technical appendix. Due to these assumptions, the likelihood of actual costs equaling the stated projections decreases for each year projecting further into the future.

The chart below shows a projection of expected District benefit payments over the next 30 years:

As of July 1, 2023, the amount of the contribution will increase to \$15,000. <i>Note: the auditor has previously determined this amount to be immaterial. Support Staff (cont.)

Hired on/after 7/1/2020	
Eligibility	Actively-Funded Benefit
At least age 55 with a minimum of 15 years of service in the District	HRA Contributions: The District will fund annually, earmarked by employee during each active year of service \$375/year of service beginning with the 2020/2021 fiscal year into an irrevocable trust. Note: No vesting schedule <i>Since the District is funding this benefit annually as it is earned, it is assumed that the obligation is accounted for each year and that the irrevocable account is always fully-funded for the amount of the total obligation. Thus, this benefit, while provided in retirement, is not included in the OPEB valuation.</i>
Note: Support Staff includes Assistants, AV Technicians, Bus Drivers, Cooks, Custodians, Secretaries and Specialists	

Notes:

- Teachers and Support Staff also have a Sick leave benefit, which is not included in the summaries above.
- The Sick Leave Benefit is not an OPEB benefit, but a compensated absence under GASB 101. However, the resulting implicit rate subsidy, when applicable, from use of such funds to remain on the District's health plan should be accounted for as an OPEB.
- The entire health credit is paid as a lump sum upon the employee's retirement and transferred from the District's Irrevocable Trust (Fund 73) to Mid-America's HRA trust. This valuation reflects the post-employment obligations of active employees yet to receive their health credit and incorporates only the trust assets in the District's Fund 73 (not including those assets held in Mid-America's HRA trust).
- The District has a high-deductible health plan (\$6,450 single/ \$12,900 family) and provides HSA contributions to active employees in the amount of \$3,000 single/ \$6,500 family. Retirees are not eligible for these HSA contributions. As of January 1, 2023, the high-deductible health plan will be \$5,500 single/ \$11,000 family with HSA contributions of \$2,750 single/ \$5,500 family for active employees. Retirees are still not eligible for the contributions.
- Effective 7/1/2026, retirees will only be able to self-pay to remain on the District's group health and dental plan for the duration of COBRA.

OPEB Actuarial Assumptions

Valuation Date	June 30, 2024
Measurement Date	June 30, 2024
Reporting Date	June 30, 2025
Actuarial Cost Method	<u>Entry Age Normal – Level % of Salary</u> : Under this method, the actuarial present value of the projected benefits of each individual included in an actuarial valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit age(s). The normal cost is equal to the valuation salary multiplied by the present value of benefits divided by the present value of future salaries, measured as of the date of hire. The accrued liability is equal to the present value of projected benefits minus the present value of future normal costs, measured as of the valuation date.
Interest Rate	Discount rate for valuing liabilities – 5.58% Interest Rate on plan assets – 5.58% Implicit in these rates is 2.50% assumed rate of inflation.
Asset Valuation Method	Market Value
Average of Expected Remaining Service Lives	13 years
