DATE REVISED: October 30, 2017

Security should mean not only maintenance of a secure (locked) building but protection from fire hazards and faulty equipment and safe practices in the use of electrical, plumbing, and heating equipment. The board of education encourages close cooperation with local law enforcement, fire departments, state and federal authorities and insurance company inspectors.

Access to school buildings and grounds outside of regular school hours shall be limited. An adequate key control system shall be established, which will limit access to buildings to authorized personnel.

Records and funds shall be kept in a safe place and secured as required.

Protective devices designed to be used as safeguards against illegal entry and vandalism shall be installed when deemed appropriate.
